Omojola,2014-06-12 The constitutions of most countries frown at gender discrimination Local multinational and multilateral organizations in many developed and developing nations have instituted policies and taken actions that address cases of injustice against women But gender inequity appears to be an issue beyond what constitutional provisions and corporate strategies can address How for instance does a statutory provision guarantee the equal visibility of men and women in a news report especially in a neoliberal democracy where the general patriarchal character of the media aligns with the logic of commercialism which prioritizes profit and targets mainly those who have the means of purchase The invisibility of women in the media is a global issue and a great concern in Africa *Women s Political Visibility and Media Access The Case of Nigeria* however is about a country of over 160 million people a population roughly divided equally between male and female The book through empirical analyses and qualitative discourses agglomerates several perspectives regarding the visibility of women in the turbulent Nigerian political terrain and the response of the media in that direction in a concerted effort to resolve the burning issues of gender equality in Nigeria The book assesses the impact of aggressive tactics from women in the political arena conscious reporting of women by journalists and the increased use of ICTs by women as practical ways of bridging this wide gap **IR** Michael G. negotiations and their constitutional results she pinpoints the factors that make a successful transition to democracy possible In her closing chapter the author illustrates the lessons of the Spanish case and their practical implications for future transitions to democracy

American Nation-Building Kevin Dougherty, Robert J. Pauly, Jr., 2017-09-20 Nation building efforts by the United States and the international community have led to both success and failure overwhelming support and debilitating controversy Some are motivated by national security interests others by humanitarian concerns They seem to have exploded since the end of the Cold War but in fact have long been used as a foreign policy tool What they all have in common is a substantial investment of troops treasure and time There is no formula each operation is unique with lessons to be learned and trends noted Examining the history of America s experience this book describes the mechanisms behind what often appears to be a haphazard enterprise
