The Dollarization Discipline Jeffrey J. Fox,Richard C. Gregory,2004-09-03 How companies turn value added into real profits The Dollarization Discipline shows organizations and marketers how to effectively communicate the economic value created by their products and services Too often when companies compete using conventional sales and marketing approaches they force customers to make financial decisions how much to spend based on non financial arguments product features and benefits On this playing field the company that can show true financial advantage in real dollars and cents wins every time This book offers a step by step strategy for doing just that Every day good companies suffer because they create value for customers but aren t able to keep their fair share This is because most marketers can t fully explain the value customers get from their products and the argument falls to the lowest common denominator price The solution is an approach to sales and marketing that goes beyond articulating features and benefits but calculates the monetary value a customer receives from a product or service This enables the seller to price the product as a true reflection of its value and also let s the seller prove it to the customer With real case studies and detailed step by step guidance on effective dollarization The Dollarization Discipline finally offers a practical straightforward way for marketers and business leaders to prove the value of their value added Jeffrey J Fox Gilford New Hampshire is the founder and President of Fox Company Inc a marketing consulting firm Fox is also the author of the bestsellers How to Become a CEO How to Become a Rainmaker and How to Become a Great Boss Richard C Gregory Farmington Connecticut is a Senior Consultant with Fox Company *The Advertising Red Books* ,2005 *PC Magazine* ,2004-11 **Popular Science** ,2003-06 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *The Advertising Red Books: Indexes* ,2004 **Network World** ,1994-12-05 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are responsible for designing implementing and managing the voice data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce **Singapore Business** ,1998
