prejudice and stereotype that motivate the everyday discriminatory behaviour of institutions and many individuals towards Roma Antigypsyism is a form of racial discrimination Most antigypsyism acts are illegal and contrary to human rights even when they are not prosecuted and even if they are widespread and often ignored or tolerated Antigypsyism undermines the moral fabric of societies Democracy and human rights cannot take root where discrimination is institutionalised tolerated or conveniently ignored Education plays a central role in combating and overcoming antigypsyism because the result of centuries of prejudice cannot be fought by laws and courts alone Human rights education learning for through and about human rights provides an ideal approach to raising awareness about antigypsyism and promoting a culture of universal human rights This manual was produced within the Roma Youth Action Plan of the Council of Europe to provide teachers trainers and facilitators of non formal education processes with essential information and methodological tools to address antigypsyism with young people of all ages and in any social cultural setting It is equally suitable for work with groups of non Roma Roma only or mixed groups Combating antigypsyism is a task for all of us learning about it is a necessary starting point As human beings we have the capability to discriminate and impose prejudice upon others Fortunately we are also capable to learn and change Mirrors is a great help to help us notice this correct distorted views and to recognise ourselves in the eyes of others
