Teaching Computing Henry M. Walker, 2018-04-24 Teaching can be intimidating for beginning faculty. Some graduate schools and some computing faculty provide guidance and mentoring, but many do not. Often a new faculty member is assigned to teach a course with little guidance, input, or feedback. *Teaching Computing: A Practitioner's Perspective* addresses such challenges by providing a solid resource for both new and experienced computing faculty. The book serves as a practical, easy-to-use resource covering a wide range of topics in a collection of focused, down-to-earth chapters. Based on the author's extensive teaching experience and his teaching-oriented columns that span 20 years and informed by computing education research, the book provides numerous elements designed to connect with teaching practitioners, including a wide range of teaching topics and basic elements of teaching, including tips and techniques. Practical tone: the book serves as a down-to-earth practitioners' guide. Short, focused chapters. Coherent and convenient organization. Mix of general educational perspectives and computing-specific elements. Connections between teaching in general and teaching computing. Both historical and contemporary perspectives. This book presents practical approaches, tips, and techniques that provide a strong starting place for new computing faculty and perspectives for reflection by seasoned faculty wishing to freshen their own teaching. **The American Red Cross Pacific Division Activities** American National Red Cross. Discover Swimming Roberto Strauss, 2019-08-28 A common sense approach for teachers/coaches/PE students. Are you the BEST swim instructor that you can be? Are you the BEST parent that you can be? That's why you chose this handbook. WELCOME to the world of *Discovering Swimming*. In this book, I will share with you all the wisdom that I have been taught, and as the founder and director of Swim Gym H2O's Foundation. During this time, educators from around the world, my swim instructors, the parents of my students have taught me, but most of all, I have learned from my students.
