Tel Malhata Itzhaq Beit-Arieh, Liora Freud, 2015-06-18 Tel Mal ata A Central City in the Biblical Negev presents the results of nine seasons of excavations two by the first expedition and seven by the second Tel Mal ata is an elliptical shaped mound located in the eastern sector of the Arad Beer sheba Valley and spreads across some 18 dunams Tel Mal ata is generally identified with biblical Moladah one of the cities of Judah although other identifications have been suggested The Arabic name of the site Tell el Mil Hill of the Salt is apparently indicative of its association with the production and distribution of salt from the Dead Sea in more recent times The many Bedouin graves on the upper terrace of the tell significantly hindered the planning of the excavations and consequently the excavations were concentrated mainly where no graves were discerned The two volume report consists of 22 chapters that take the reader through six strata of civilization ranging from the Middle Bronze Age to the early Byzantine period

Inside an African Police Force Jude Kagoro, 2022-10-18 The book discusses police practices in Uganda which are understood as fluid and reflective of the socio political cognitive and discursive contexts within which the Uganda Police Force UPF exist The author was immersed in the UPF both as an ethnographer and a consultant The book demonstrates how police officers navigate clashes between personal interests and those of the UPF shedding more light on the divergences and convergences between policies in theory and policies in practice It contributes to the literature on police research especially to our understanding of policing and the anthropology of the state in Africa It highlights that the Ugandan police engages in political policing and its role is stretched beyond its legal mandate The target audience is twofold first academics interested in police studies and the undercurrents of interface bureaucracies in Africa Second practitioners focused on improving state and police services in African contexts

Conservation of Ancient Sites on the Silk Road Neville Agnew, 1997-06-19 At the Mogao grottoes a World Heritage Site near Dunhuang in the Gobi Desert generations of Buddhist monks created hundreds of rock temples Nearly five hundred of these grottoes remain lined with painted clay sculptures and wall paintings that depict legends portraits customs and the arts of China over a one thousand year period This volume of symposium proceedings marks the culmination of the first phase of the Getty Conservation Institute's collaborative project with the State Bureau of Culture Relics of the People's Republic of China and the Dunhuang Academy

Eileen Gunn, 2012-02-01 This collection of tightly crafted highly imaginative short stories employs surrealist satirical and fantastical devices to explore politics class and gender From creatively homicidal bioengineering to counter the stresses of climbing the corporate ladder to a woman who loses a sock at the laundromat and finds she's missing a bit of her soul these science fiction gems showcase an award winning writer's compelling vision of the universe Computer pioneers cross country

skiers and aliens figure into these literary stories that challenge the boundaries of imagination with quirky anti establishment characters and visionary technological extrapolation **Nebula Awards Showcase 2006** Gardner Dozois,2009-04-07 Each year the members of the Science Fiction and Fantasy Writers of America r bestow the Nebula Awards to authors whose exemplary fiction represents the most thought provoking and entertaining work the genre has to offer Nebula Awards Showcase collects the year s most preeminent science fiction and fantasy in one essential volume This year s winners include Lois McMaster Bujold Eileen Gunn Ellen Klages and Walter Jon Williams as well as Grand Master Anne McCaffrey *The Basic Type Meter Stamp Catalog* ,1959 D.N. Frost,2015-09-04 Clear and Frost chart the rise of penal severity in the U S and the forces necessary to end it Over the last 40 years the US penal system has grown at an unprecedented rate five times larger than in the past and grossly out of scale with the rest of the world In *The Punishment Imperative* eminent criminologists Todd R Clear and Natasha A Frost argue that America s move to mass incarceration from the 1960s to the early 2000s was more than just a response to crime or a collection of policies adopted in isolation it was a grand social experiment Tracing a wide array of trends related to the criminal justice system this book charts the rise of penal severity in America and speculates that a variety of forces fiscal political and evidentiary have finally come together to bring this great social experiment to an end The authors stress that while the doubling of the crime rate in the late 1960s represented one of the most pressing social problems at the time it was instead the way crime posed a political problem and thereby offered a political opportunity that became the basis for the great rise in punishment Clear and Frost contend that the public s growing realization that the severe policies themselves not growing crime rates were the main cause of increased incarceration eventually led to a surge of interest in taking a more rehabilitative pragmatic and cooperative approach to dealing with criminal offenders that still continues to this day Part historical study part forward looking policy analysis *The Punishment Imperative* is a compelling study of a generation of crime and punishment in America *Rethinking the Federal Lands* Sterling Brubaker,2015-09-25 The federal government is by far the largest landowner in the United States It is somewhat of an anomaly for the federal government to hold vast acreages of land in an economy where the prevailing ideology favours private ownership The Reagan administration s 1981 1989 proposal to increase energy and mineral development on federal lands to accelerate timber harvesting in national forests and to expand the sale of federal lands generated strong and vocal opposition Originally published in 1984 in the midst of the Reagan era *Rethinking the Federal Lands* examines why the U S has retained federal lands and questions how ownership affects the management of federal lands and the total benefits society derives from them This title is ideal for students interested in environmental studies and policy making **Review of**
