**Canada in Afghanistan** Owen Schalk, 2023-08-29 How and why Canada went to war in Afghanistan what Canadians were doing on the ground and why the effort failed to achieve any of its aims military humanitarian or diplomatic Canadian leaders then and now claim great success for Canada's role in Afghanistan from 2003 to 2014 and beyond Though 151 Canadians were killed in combat the Canadian military played a key role in fighting the Taliban Canada built schools restored a major dam and advised a government on elections and economic development Yet within hours of the final withdrawal by US troops in 2021 the government collapsed The Taliban returned to power Why did Canada send our military to fight the Taliban and occupy Afghanistan Why was the mission a failure And why have Canadian governments failed to analyze the reasons for this failure In this book independent scholar Owen Schalk offers a history of Canada's role in Afghanistan He discusses why Canada's efforts and those of the US and others failed And he shows how the Canadian media did not report accurately on the war and misinformed the public during the war and afterwards Owen Schalk provides an incisive illuminating account of Canadian involvement in a war that cost lives and many billions It's a story that Canadian officials would prefer not be told

**Propaganda and Public Relations in Military Recruitment**

Brendan Maartens, Thomas Bivins, 2020-11-19 This book represents the first international investigation of military recruitment advertising public relations and propaganda Comprised of eleven case studies that explore mobilisation work in Africa the Americas Asia and Europe it covers more than a hundred years of recent history with chapters on the First and

Second World Wars the Cold War and the present day The book explores such promotion in countries both large and small and in times of both war and peace with readers gaining an insight into the different strategies and tactics used to motivate men women and occasionally even children to serve and fight in many parts of the world Readers will also learn about the crucial but little known role of commercial advertising public relations and media professionals in the production and distribution of recruitment promotion This book the first of its kind to be published will explore that role and in the process address two questions that are central to studies of media and conflict how do militaries encourage civilians to join up and are they successful in doing so It is a multi disciplinary project intended for a diverse academic audience including postgraduate students exploring aspects of war propaganda and public opinion and researchers working across the domains of history communications studies conflict studies psychology and philosophy The Harper Era in Canadian Foreign Policy Adam Chapnick, Christopher J. Kukucha, 2016-07-28 Canada's back announced the victorious Liberal Party in October 2015 After almost ten years of Conservative Party rule the Harper era in Canadian foreign policy was over suggesting a return to the priorities of gentler more cooperative Liberal governments But was the Harper era really so different And if so why This comprehensive analysis of Canada's foreign policy during the Harper years addresses these very questions The chapters written by leading scholars and analysts of Canadian politics provide an excellent overview of foreign policy in a number of different policy areas They also offer differing interpretations as to whether the transition from a minority to majority government in 2011 shaped the way that the Harper Conservatives conceived of developed and implemented international policy The analysis is gripping and the findings surprising particularly the contention that the government's shift to majority status was far less important to foreign policy under Harper than it had been under previous governments The reasons why reveal important insights into the Harper decade of foreign policy Official Report of the Debates of the House of Commons Canada. Parliament. House of Commons, 2009-11 **From Failure to Failure** Allan English, 2025-08-06 What should we do when a critical institution says all the right things yet repeatedly fails to live up to its word In their latest sexual misconduct crisis the Canadian Armed Forces CAF has clearly failed as an institution to properly address sexual misconduct Unless these crises are properly dealt with they threaten to make the military irrelevant in Canadian society These are the words of General Wayne Eyre Canada's Chief of the Defence Staff from 2021 to 2024 What does this grim assessment from within the military itself mean for the health and relevance of the Canadian Armed Forces and its culture Most importantly what can we do about it What will it take to turn words into effective transformative action To fix any problem we first need to understand it In his latest book *From Failure to Failure* Allan English seeks to shed light on the roots of this complex and often obscured problem Within these pages English provides a thorough analysis of the CAF's various attempts from 2000 to 2022 to manage the issues surrounding these crises He especially focusses on Operation Honour the CAF's most visible response to the 2015 Deschamps Report and discusses its place among the CAF's other responses between 2000 and 2022

Through careful analysis of the CAF's fundamental culture and assumptions English goes beyond a simple recounting of the facts to provide practical lessons Whether you're an academic an invested member of the public or a member of the military this book is for you This analysis can not only help you stay informed but also empower you with the critical insights you need to enact practical change **Canadian Forces in Afghanistan 3-Book Bundle** Bernd Horn, Emily Spencer, 2016-02-27

Zyla, 2021-08-18 Canada's statebuilding efforts in Afghanistan are not well documented After fourteen years of significant investments in humanitarian causes there are still questions about the impact of these projects and whether they delivered as promised or fell short In *Canada as Statebuilder* Laura Grant and Benjamin Zyla analyze over one hundred and thirty Canadian led development projects in Afghanistan to illustrate that Canada has a limited capacity to effectively run humanitarian efforts in unstable insecure or inaccessible environments Canadian or Canadian sponsored development projects were ambitious and highly productive in terms of outputs in the short term especially in the areas of security women and gender health and education However when their outcomes and overall impact are assessed the authors argue Canada's record is less impressive Their analysis contributes to evidence based discussions of one of Canada's most important foreign policy activities in recent years Reflecting on Canada's engagement in Afghanistan *Canada as Statebuilder* asks whether Canadian peacekeeping efforts in the region were ultimately worth the economic and human resources invested **Rights**
