Report Welfare Fraud In New York:

Managing Welfare Reform in New York City Emanuel S. Savas, 2005 Welfare reform was a spectacular success in New York under Mayor Giuliani despite the city's history of liberal social programs and its huge entrenched welfare system. The city reduced the numbers on welfare from 1 120 000 to 460 000 by changing the organizational culture protecting against fraud insisting on work first adapting information technology and contracting for job placement. The organizational culture was transformed by bold leadership that changed the welfare agency's mission and goals overcame internal resistance and prevailed over politicians who had a vested interest in the status quo and the media that were opposed to welfare reform. Welfare fraud was largely eliminated by dropping from the rolls those who were working and could not appear for in person interviews by fingerprinting recipients to catch those enrolled under multiple identities and those receiving welfare checks from other jurisdictions by uncovering hidden income by enrolling new applicants only after thorough investigation and by tightening controls to prevent fraud by corrupt employees. JobStat a computer based system modeled after the Police Department's system used to track precinct activity was developed to track the status of welfare recipients and to monitor the performance of the Job Centers which were formerly called welfare offices. JobStat focused the attention of department personnel on performance indicators rather than on minutely specified rules. The Giuliani administration's major contribution to national welfare reform was the creation of the only system in the country with large scale alternative work arrangements that was able to acculturate large numbers of the never employed to the world of work. *Welfare Reform Proposals, Including H.R. 4605, the Work and Responsibility Act of 1994* United States. Studies in Public Welfare James R. Storey, 1972 *Policing Welfare Fraud* Scarlet Wilcock, 2023-12-11 Policing Welfare Fraud charts and interrogates the suite of measures ostensibly designed to combat welfare fraud and non compliance in Australia which serves as the empirical focus of this book. These strategies include stringent ID checks pre-emptive data surveillance technologies including the infamous and illegal robodebt programme a dedicated fraud hotline and an intelligence led fraud investigation framework. Drawing on original documentary and interview data including interviews with fraud investigators this book unpacks the logics that underpin these anti fraud initiatives with a focus on how these initiatives are imbued with logics and practices more readily associated with the criminal justice system. The central argument of the book is that the emergence of contemporary welfare compliance regimes represents a form of governing through fraud in which the threat of welfare fraud has effectively necessitated a regime of criminalisation within the welfare state. This has been enabled by a broader process of neoliberal welfare reform which has cast suspicion over all welfare use. The overall effect of this regime is to restrict access to social security punish welfare recipients and stigmatise welfare use. *Policing Welfare Fraud* also highlights points of contradiction and multiplicity in the enactment of specific welfare compliance

initiatives including attempts by welfare officials to moderate or reformulate these strategies on the ground These findings demonstrate that the criminalisation of welfare is neither uniform nor inexorable and that more progressive welfare reform is possible An accessible and compelling read this book will appeal to students and scholars of criminology sociology politics and those interested in the policing of welfare recipients *Clearinghouse Review* ,1980 **Investigated Reporting** Chad Raphael,2010-10-01 Triple Award Winner 2006 History Division Book Award of the Association for Education in Journalism and Mass Communication 2006 Frank Luther Mott Kappa Tau Alpha Communications Award and 2005 Donald McGannon Award for Social and Ethical Relevance in Communications Policy Research The public often views television investigative reporting as a watchdog on the government In fact some of the centerpiece moments of TV muckraking relied heavily on official sources for inspiration information and regulatory protection from critics At the same time criticism by government officials and overt threats to regulate the television industry influenced the decision making and content that went into some of broadcast news s iconic moments Chad Raphael s looks at the relationship between journalism and regulation during the celebrated period of muckraking that took place on American television between 1960 and 1975 Raphael offers new insights into the economic political and industrial forces that shaped documentaries like *Harvest of Shame* *Hunger in America* and *Banks and the Poor* while placing the investigative television documentary into its institutional regulatory and cultural context Throughout Raphael exposes the complex strands of influence used by government officials to shape and attack investigative reporting and highlights how these tactics created a troubling legacy for the regulation of television news today
