Digital Blood on Their Hands Andrew Jenkinson,2023-02-10 Cyberattacks are nothing particularly new to the world and Ukraine had suffered many such attacks by Russia over recent years Russia had knowingly been exploiting Ukraine's digital vulnerabilities as a proving ground for nearly a decade Malware such as Sandworm and BlackEnergy had caused untold damage to the Ukrainian population and government previously which allowed Russia to perfect cyberattacks for further more global events Russia had been planting cyber sleeper digital cells for years especially in the US and the UK Then coincidentally the week after the Chinese Winter Olympic games had finished Russia launched an all out cyber offensive against 70 Ukrainian government websites Owing to these being poorly and insecurely maintained they toppled one by one causing havoc and disruption to the Ukrainian government and to Ukraine's critical infrastructure As Q said in James Bond I can do more damage by breakfast sipping my Earl Grey tea with my keyboard than you ever can in the field Sadly Q was right as we witness daily The keyboard and mouse have indeed become mightier than the sword The barrage of cyberattacks against Ukraine constitutes the first cyberwar by one nation against another This attack crossed a very thin red line That line had the hallmarks of a nation state but had until now been confined

to cyber criminal activities immaterial of whom the perpetrators were This however was now war The cyberwar was simply a precursor the softening of a country that would precede a kinetic war in which tens of thousands of people would lose their lives This war was the first war for nearly 80 years that rang out deathly klaxons across Europe and the world Digital Blood on Their Hands addresses the issues that the digital world has created covering the culpability causal links and even liabilities that go towards these war crime atrocities often too frightening to believe and also too compelling to dismiss It tells a side to the world s first ever cyberwar that you would never otherwise see or possibly hear about **It Did Happen: A**
