Pyramids of Ancient Egypt

Non-chronological report

Pyramids were **large, triangular structures** used as tombs for the burial of pharaohs and their greatest possessions. Some of the pyramids have survived for thousands of years and can be seen in Egypt today. The pyramids themselves **could reflect complex ideas about life after death**. **Each pyramid** stands as a monument that shows the **power and wealth** of the pharaoh.

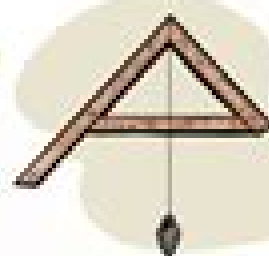

What were the pyramids built?

The **pyramids of ancient Egypt** were **built by ancient Egyptians** as **tombs** for the **pharaohs**. They continued to be built for a period of around 800 years. **During that time**, the pyramid design improved. **Eventually**, they stopped being built altogether. This was due to them being too expensive and **because** there were **other** ways to build.

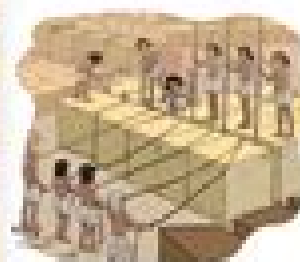

Why were the pyramids built?

How were the pyramids built?

No records have ever been found of how the pyramids were built. The **information** that we do know is based on **ancient Egyptian** **text**. **According to these texts**, **pyramids** ordered the pyramids to be made. It was **called** **pharaohs** who carried out the work. Building pyramids was an important **task** and the workers took great pride in what they did. **Some** **workers** were **paid** to work, **others** would also work in the building of the pyramids.

An important **worker** **called** **the overseer** **and** **the architect** **showed** the ancient Egyptians to build the pyramids with accuracy and precision. They used the **compass** and **plumb line** to ensure the pyramids **were** **straight** and **level**.

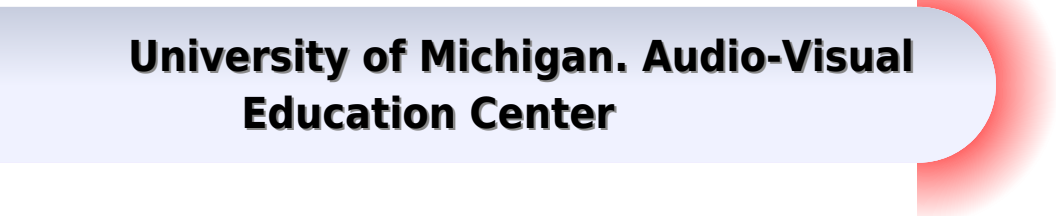

Two million stones or **more** **were** **used** **to** **build** **the** **pyramids**. The large stones were cut **from** **the** **ground**. They were in the ground, and then pulled out using **wooden** **levers**. **The** **large** **stones** **were** **too** **heavy** **to** **lift** and there was no industrial **equipment**. To move them, the **workers** **used** **large** **wooden** **rollers**. **They** **used** **ropes** **to** **pull** **the** **stones** **up** **the** **ramps**. **It** **would** **have** **been** **very** **slow**.

It remains a mystery as to how the stones were taken up to a higher level. It is thought that the workers used a combination of **ramps** and **rollers** to pull the stones on the **rollers** up to where they were needed.
