Luke,2015-11-17 Schools theatres and malls used to be safe havens Marathons were triumphal not tragic Today public life is risky Citizens are on edge either calling for gun control or purchasing personal weapons of self defense In this timely book prominent US and international authors examine gun violence in public life They offer the latest data and analysis on topics such as comparative gun homicide rates the efficacy of gun control risks associated with gun ownership concealed carry data and policy media and gaming violence gender and guns and school shootings New insights are developed from a comparative case study of Canada a country in which gun ownership is common but with a much lower rate of gun violence Neither demonising nor mythologising guns the contributors provide evidence based analyses that shed light on policy directions and personal conduct **Guns and College Homicide** Stephen K. Boss,2019-01-28 At a time when mass shootings in schools and other public spaces have become commonplace it might seem surprising that American college campuses are not magnets for murderers but sanctuaries from them Because of remarkably effective gun safe policies deaths by firearms on college campuses are 1 000 times less frequent than in the U S public at large Drawing on crime data submitted in compliance with the Clery Act and public reports of those crimes this study inventories every documented homicide at a U S college or university between 2001 and 2016 making a compelling argument for using gun safe campuses as guides for broader public safety **Ending Campus Violence** Brian Van Brunt,2012-08-21 With the growth of threats and violence in higher education settings college campuses are increasingly expected to have systems in place to identify potentially aggressive individuals and intervene to ensure the safety of the campus population This book will be useful for student affairs professionals as well as college counselors psychologists social workers interested in the practical management of aggression and violence on a college campus It will also be a valuable resource for those involved in creating and running behavioral intervention teams and threat risk assessment teams Ten case studies from both the community and residential college settings provide a comprehensive overview of campus violence and how to intervene to prevent it Pertinent background

information is discussed as an introduction to these narratives such as the fundamentals of aggression and violence on campuses how these behaviors can impact students faculty and staff and what can be learned from past campus violence Along with discussion questions and a review of ways to approach each situation experts in higher education forensic risk assessment law enforcement and legal issues weigh in on each case study Their perspectives offer a context and broad base of opinions and ideas on how each case could be handled Additional examples for further training of the college counselor are given through a detailed look at almost 100 incidents of violence including thwarted attacks rampage shootings and hostage situations
