

OBJECTIVES OF RESEARCH

Research is defined as a systematised effort to gain new knowledge. It is referred to as the search for knowledge.

The main purpose of research is to find solutions to unsolved problems using scientific procedures and to understand various phenomenon scientifically.

The main objective of research is to find out a hidden, undiscovered truth.

The various objectives are –

1. Propose and test certain hypothesis that provide causal relationships between variables.
2. Discover and establish the existence of relationship, association and independence between two or more aspects of a situation or phenomenon.
3. Understand different phenomenon and develop new perceptions about it.
4. Study and describe accurately the characteristics of situations, problems, phenomenon, services, groups or individuals.
5. Explain the unexplored horizons of knowledge.
6. Test reported findings and conclusions on new data and novel conclusions on previously reported data.
7. Study the frequency of research that is connected with unspecified study.
