Research Paper Death Penalty:

The Death Penalty United Nations Social Defence Research Institute, 1988 **The Death Penalty** Roger Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading Widely relied upon and fully updated to reflect the current state of affairs worldwide this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal **The Ethics of Capital Punishment** Matthew H. Kramer, 2011-12-15 Taking a fresh look at a central controversy in criminal law theory The Ethics of Capital Punishment presents a rationale for the death penalty grounded in a theory of the nature of evil and the nature of defilement Original unsettling and deeply controversial it will be an essential reference point for future debates on the subject **The Slow Death of the Death Penalty** Todd C. Peppers, Jamie Almaller, Mary Welek Atwell, 2025-07 The book is a postmortem examination of what has killed the death penalty in states across the country **Routledge Handbook on Capital Punishment** Robert M. Bohm, Gavin Lee, 2017-12-15 Capital punishment is one of the more controversial subjects in the social sciences especially in criminal justice and criminology Over the last decade or so the United States has experienced a significant decline in the number of death sentences and executions Since 2007 eight states have abolished capital punishment bringing the total number of states without the death penalty to 19 plus the District of Columbia and more are likely to follow suit in the near future Nebraska reinstated its death penalty in 2016 Worldwide 70 percent of countries have abolished capital punishment in law or in practice The current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries Within this context a fresh look at capital punishment in the United States and worldwide is warranted The Routledge Handbook on Capital Punishment comprehensively examines the topic of capital punishment from a wide variety of perspectives A thoughtful introductory chapter from experts Bohm and Lee presents a contextual framework for the subject matter and chapters present state of the art analyses of a range of aspects of capital punishment grouped into five sections 1 Capital Punishment History Opinion and Culture 2 Capital Punishment Rationales

and Religious Views 3 Capital Punishment and Constitutional Issues 4 The Death Penalty's Administration and 5 The Death Penalty's Consequences This is a key collection for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in prison service or in related agencies

The Death Penalty Scott Vollum, Rolando del Carmen, Durant Frantzen, Claudia San Miguel, Kelly Cheeseman, 2014-05-16 The Death Penalty Third Edition brings together all the legal issues related to the death penalty and provides case briefs for the most important United States Supreme Court death penalty cases No other book available brings together a discussion of the major constitutional issues surrounding the death penalty with a broad array of associated case briefs The authors classify cases according to legal issues and provide a commentary on the various sub topics presenting legal materials in an easily understood form Though the primary audiences of the book are

undergraduates in criminal justice programs and practitioners in the corrections and justice systems the book will also prove useful to anyone who has an interest in the death penalty the criminal justice system or the United States Constitution Every chapter starts with commentaries regarding general case law in a sub topic such as aggravating and mitigating factors followed by a chart of the cases briefed in the chapter and then the case briefs These case briefs acquaint the reader with Supreme Court cases by summarizing facts issues reasons and holdings The Death Penalty Third Edition is a succinct trusted guide to the law of capital punishment in the United States Forensic Mental Health Assessments in Death Penalty Cases David DeMatteo,2011-03-29 This text provides an essential road map to forensic mental health assessments in death penalty cases for students and practitioners The book integrates research with best practice recommendations yielding a solid foundation of information related to capital punishment death penalty litigation and more Deterrence and the Death Penalty National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Law and Justice,Committee on Deterrence and the Death Penalty,2012-05-26 Many studies during the past few decades have sought to determine whether the death penalty has any deterrent effect on homicide rates Researchers have reached widely varying even contradictory conclusions Some studies have concluded that the threat of capital punishment deters murders saving large numbers of lives other studies have concluded that executions actually increase homicides still others that executions have no effect on murder rates Commentary among researchers advocates and policymakers on the scientific validity of the findings has sometimes been acrimonious Against this backdrop the National Research Council report Deterrence and the Death Penalty assesses whether the available evidence provides a scientific basis for answering questions of if and how the death penalty affects homicide rates This new report from the Committee on Law and Justice concludes that research to date on the effect of capital punishment on homicide rates is not useful in determining whether the death penalty increases decreases or has no effect on these rates The key question is whether capital punishment is less or more effective as a deterrent than alternative punishments such as a life sentence without the possibility of parole Yet none of the research that has been done accounted for the possible effect of noncapital punishments on homicide rates The report recommends new avenues of research that may provide broader insight into any deterrent effects from both capital and noncapital punishments
