Writing Securities Research Jeremy Bolland,2010-12-01 The book highlights the major risks that securities analysts and other securities professionals face The various laws rules and regulations that securities analysts are subject to are broadly split into three categories research specific rules and regulations market wide laws and society wide laws and customs The risks that arise out of these various levels of rules and regulations insofar as research analysts and other securities professionals are concerned include conflicts of interest fair distribution front running of research insider trading spreading of rumours not highlighting investment risks including corporate governance issues as well as defamation and copyright issues We see that if an analyst puts a company in play a regulator would instantly assume that the analyst is trading on inside information especially if the information turns out to be true or is spreading a rumour especially if it turns out to be false However we also see that there is a third option that the analyst might just have come to his or her conclusion through some good research based on verifiable facts and reasonable assumptions Definitions of research from around the world are examined After all research is generally defined by its content not by the author s job description As such non Research securities professionals such as brokers and marketers of research as well as investors journalists and even bloggers and twitterers need to understand what constitutes research so that they don t fall into the regulators purview As regards the risks to investment views that analysts need to highlight to their investors the book not only examines economic and financial risks but also examines corporate governance issues such as executive compensation equal treatment of shareholders related party transactions and risk management To demonstrate the risks that analysts securities professionals and investors face the book draws on many cases and examples from around the world including many from the global financial crisis of 2007 2009 From these cases we see how penalties for those involved in the securities markets have become more serious over the years They range from fines to imprisonment and even to execution in some markets To give a light hearted angle many of these cases are accompanied by Alex cartoons

Man Up Cynthia Miller-Idriss,2025-09-16 The revelatory and urgent story of how an explosion of misogyny is driving a surge of mass and far right violence throughout the West from an internationally recognized extremism expert and media commentator What two things do most mass shooters terrorists or violent extremists have in common Most of us know the first they are almost always men or boys But the second They are almost always virulent misogynists homophobes or transphobes even if they are also motivated by racism

antisemitism or xenophobia The antigovernment militiamen charged with plotting to kidnap and execute Michigan governor Gretchen Whitmer used language saturated with misogyny with one telling an FBI informant Just grab the bitch The men who killed scores at Virginia Tech the Pulse nightclub and a Maryland newsroom all had prior reports of stalking domestic violence or harassment of women And in dozens of other incidents from North America to Norway to New Zealand an increasing number of misogynist incel involuntary celibate and male supremacist attackers have explicitly targeted and killed women blaming feminism or sexual frustration with women as motivation for their attacks Yet despite all evidence the bright red thread of misogyny running through these attacks is barely acknowledged by the media or even experts and this failing leaves us powerless to stop the violence In Man Up Cynthia Miller Idriss a leading expert on extremism addresses this crucial oversight head on revealing how an epidemic of misogyny both online and off and a patriarchal backlash are driving an exponential rise in mass and far right violence She also offers essential strategies that all of us including parents teachers and counselors can use to fight the rising tide of violence beginning with recognizing the misogyny that pervades our everyday lives
