The deadliest war in American history is known as the American Civil War killing nearly 620,000 soldiers and a mass amount of civilians. The War Between the States was fought between Southern slave states and the United States federal government. Southern states formed a group called the Confederacy, which went against the beliefs of the Union. Jefferson Davis of the Confederate States of America and Abraham Lincoln sought different views on slavery.

Lincoln believed that all slaves should be emancipated and advocated the restoration of the Union. The Fugitive Slave Law of 1850 supported the belief that all slaves who escaped, once captured were to be returned to their owners. This led to the 'War Governors' Conference on September 25, 1862 which included the meeting of thirteen Union governors who conversed between many different aspects of the war. The importance of this meeting routed from the war and the downfall that Abraham Lincoln was witnessing in the United States. As they discussed many reasons to abolish slavery, they believed that a substantial win would help the announcement of the proclamation. Slavery had a significant impact on society in a moral and economical aspect. The money had "strengthened the American economy in the north and south.

" Economically slaves who worked on plantations changed the agricultural society. The shift went from the agricultural society to a more advanced industrial society. This then caused the downfall of the Confederate States of America. "Slaves were known as contraband, or illegal imports to represent the captured slaves, and with the impact of Lincoln, he was able to present the theory of emancipation that took away the view of slaves as property and allowed the states to control the territory within their borders. When the proclamation was first issued, it did not free all slaves. Delaware, Kentucky, Maryland and Missouri had not succeeded from the union. The collapse of the Confederate States of America forced slaves to free away from the plantations.

The emancipation of the rebellion areas was essential to end the ongoing secession that was going on in the United States. Lincoln wanted to "endorse the emancipation on the state level. " The belief of equality towards all individuals is one aspect that Lincoln promoted. At the beginning of the Civil War, Lincoln's main goal was to preserve the union, and in time the theory of emancipation came into effect. Lincoln supported the rights of each individual and the "equality of all humans that demanded and abolishment of slavery. " Releasing slaves all at once was not something that would have been immediately effective, so Lincoln approached the situation in a structured manner. After the Union had won at Antietam, he set fourth a deposition to the Confederate states stating that if the return of the Union was not met, that the remaining slaves would be free.

Escott, 2018-05-04 Arguably no event since the American Revolution has had a greater impact on US history than the Civil War This devastating and formative conflict occupies a permanent place in the nation's psyche and continues to shape race relations economic development and regional politics Naturally an event of such significance has attracted much attention from historians and tens of thousands of books have been published on the subject Despite this breadth of study new perspectives and tools are opening up fresh avenues of inquiry into this seminal era In this timely and thoughtful book Paul D Escott surveys the current state of Civil War studies and explores the latest developments in research and interpretation He focuses on specific issues where promising work is yet to be done highlighting subjects such as the deep roots of the war the role of African Americans and environmental history among others He also identifies digital tools which have only recently become available and which allow researchers to take advantage of information in ways that were never before possible Rethinking the Civil War Era is poised to guide young historians in much the way that James M McPherson and William J Cooper Jr's *Writing the Civil War The Quest to Understand* did for a previous generation Escott eloquently charts new ways forward for scholars offering ideas questions and challenges His work will not only illuminate emerging research but will also provide inspiration for future research in a field that continues to adapt and change *Ethnic Conflicts, Civil War and Cost of Conflict* Raul Caruso, 2011-07-25 Includes some of the selected papers presented by scholars in a European Peace Science Network Meeting held in Amsterdam The Netherlands This title covers the conflicts in Maoist India South America and Sub Saharan Africa Armed Organizations and Political Elites in Civil Wars Erwin van Veen, 2024-06-03 This book analyses under what conditions and with what developmental effects armed organizations shift their coercive profile during civil wars with a focus on the recent conflicts in

Syria and Iraq The work begins with an operationalisation of the term political settlement focusing on how power is organized in fragile and conflict affected countries and then uses this operationalization to analyse the political settlements of contemporary Syria and Iraq including their breakdown and transformation during recent civil wars of 2011 today in Syria and 2014 17 in Iraq It subsequently examines why and how elite factions have used armed organizations in times of conflict This approach links an understanding of the broad evolution of power relations at the national level with the specific effects of the use of armed organizations on such relations It argues for a shift from assigning fixed labels to armed organizations during civil wars to studying their coercive profile in a dynamic fashion i e how armed organizations behave in terms of their use of threats and coercive force The book introduces five profiles of coercive behaviour that demonstrate how the same organization can behave very differently at various points in time One of these the hybrid coercive profile fills a gap in the existing civil war typology of organized armed violence by opening up the possibility of elite factions deliberately combining collaborative and competitive modes of behaviour As an evidence base the book provides in depth analysis of the origins evolution and operations of four armed organizations that have acted under a hybrid coercive profile during the Syrian and Iraqi civil wars the Syrian Kurdish People s Defence Forces the Eagles of the Whirlwind of the Syrian Social Nationalist Party the Iraqi Kurdish Peshmerga and the Badr Organization By connecting the concepts of political settlement and civil war and applying them to specific armed organizations operating in Syria and Iraq the book offers new insights into this nexus This book will be of much interest to students of civil wars conflict studies Middle Eastern Studies and International Relations

A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition Kate L.

Turabian, 2009-08-14 Dewey Bellow Strauss Friedman The University of Chicago has been the home of some of the most important thinkers of the modern age. But perhaps no name has been spoken with more respect than Turabian. The dissertation secretary at Chicago for decades, Kate Turabian literally wrote the book on the successful completion and submission of the student paper. Her *Manual for Writers of Research Papers, Theses, and Dissertations* created from her years of experience with research projects across all fields, has sold more than seven million copies since it was first published in 1937. Now with this seventh edition, Turabian's *Manual* has undergone its most extensive revision, ensuring that it will remain the most valuable handbook for writers at every level, from first year undergraduates to dissertation writers apprehensively submitting final manuscripts to senior scholars who may be old hands at research and writing but less familiar with new media citation styles. Gregory G. Colomb, Joseph M. Williams, and the late Wayne C. Booth, the gifted team behind *The Craft of Research* and the University of Chicago Press Editorial Staff, combined their wide ranging expertise to remake this classic resource. They preserve Turabian's clear and practical advice while fully embracing the new modes of research writing and source citation brought about by the age of the Internet. Booth, Colomb, and Williams significantly expand the scope of previous editions by creating a guide generous in length and tone to the art of research and writing. Growing out of the authors' best selling *Craft of Research*, this new section provides students with an overview of every step of the research and writing process, from formulating the right questions to reading critically to building arguments and revising drafts. This leads naturally to the second part of the *Manual for Writers*, which offers an authoritative overview of citation practices in scholarly writing, as well as detailed information on the two main citation styles, notes, bibliography, and author date. This section has been fully revised to reflect the recommendations of the fifteenth edition of *The Chicago Manual of Style* and to present an expanded array of source types and updated examples, including guidance on citing electronic sources. The final section of the book treats issues of style, the details that go into making a strong paper. Here, writers will find advice on a wide range of topics, including punctuation, table formatting, and use of quotations. The appendix draws together everything writers need to know about formatting research papers, theses, and dissertations, and preparing them for submission. This material has been

thoroughly vetted by dissertation officials at colleges and universities across the country This seventh edition of Turabian's Manual for Writers of Research Papers Theses and Dissertations is a classic reference revised for a new age It is tailored to a new generation of writers using tools its original author could not have imagined while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian
