

must identify the cause of these trends instead of dealing with the symptoms of juvenile crime.

Incidence

A study by Eaton et al. (2002) showed that 5.9 percent of students carried weapons including guns and knives 30 days before the survey, the incidents were 3 times as much in male students as in female students. The authors also established that 7.8 percent of students had been threatened or injured by a weapon in the period of 12 months prior to study; in this case, the prevalence in male students was twice as much as that in female students. In the 12 months prior to the study, 12.4 percent of students had been involved in physical fights at least once, with the rate in male students being twice as much as it was in female students. In 30 days before the study, 5.5 percent of students had been absent from school at least once due to a feeling that the school environment was not safe; both male and female students had equal numbers in this case. According to the differential association theory, boys interact with other boys and end up picking the attitudes and techniques that motivate them to participate in violent activities more than their female counterparts.

Moreover, violence in schools is not just perpetrated on students, between 7 percent and 10 percent of teachers had been threatened of injury by students at least once in 2003 (Peek-Asa et al., 2003). Five percent of teachers were physically attacked by students in 2003, and other non-teaching staff were victims too, especially school bus drivers. According to the social disorganization theory, cases of school violence recorded occurred mostly in urban schools, with rural and suburban schools accounting fewer cases. This means that by virtue of living in urban areas and being exposed to violence in day-to-day activities and the

School Violence Dewey G. Cornell, 2017-09-29 Illustrated with numerous case studies many drawn from the author's work as a forensic psychologist this book identifies 19 myths and misconceptions about youth violence from ordinary bullying to rampage shootings It covers controversial topics such as gun control and the effects of entertainment violence on children The author demonstrates how fear of school violence has resulted in misguided counterproductive educational policies and practices ranging from boot camps to zero tolerance He reviews evidence from hundreds of controlled studies showing that school based school violence prevention programs and mental health services which are largely effective are often overlooked in favor of politically popular yet ineffective programs such as school uniforms Drug Abuse Resistance Education and Scared Straight He concludes by reviewing some of his own research on student threat assessment as a more flexible

and less punitive alternative to zero tolerance and presents a wide ranging series of recommendations for improving and expanding the use of school based violence prevention programs and mental health services for troubled students Key features include the following Contrarian Approach This book identifies and refutes 19 basic misconceptions about trends in youth violence and school safety and shows how the fear of school violence has been exaggerated through inaccurate statistics erroneous conclusions about youth violence and over emphasis on atypical sensational cases Readability The book translates scientific evidence based research into language that educators parents law enforcement officers and policymakers can readily understand and shows what can be done to improve things Expertise Dewey Cornell is a forensic psychologist and Professor of Education at the University of Virginia where he holds an endowed chair in Education He is Director of the UVA Youth Violence Project and is a faculty associate of the Institute of Law Psychiatry and Public Policy The author of more than 100 publications in psychology and education he frequently testifies in criminal proceedings and at legislative hearings involving violence prevention efforts This book is appropriate for courses or seminars dealing wholly or partly with school violence and school safety It is also an indispensable volume for school administrators and safety officers local state and national policymakers involved parents and academic libraries serving these groups
