

(Gupta, 1976). Endogamy is marriage to several wives or husbands from the same family, community, tribe, or social group.

Since the advent of marriage, marriage scenarios have immensely changed across different cultures and societies across the world. Women have since been given equal marriage right has men. During the medieval period, women were faced full responsibility of their marriages and religion. On numerous occasions, marriages have been significantly pegged on other several reasons other than love. In some cases, economic liaison was taken to be the main reason behind marriages. In most cases, there were dowry as well as proxy marriages. In the case of dowry marriages, bride and his family are expected to pay dowry to the family of the groom. The dowry may be in the form of money or present (Appelbaum, 1995). However, there some cultures that requires the groom's family to pay dowry to the bride. Significantly, few marriages in the world require any sort of courtship or dating.

Despite differences in nature and types of marriages, the culture of engagement ring is a universal customary in marriage. The use of engagement ring can be traced back from the ancient Roman. There was a belief that the roundness of the ring represented the concept of an eternal relationship (Gupta, 1976). Additionally, there is a belief that the ring and the adorn finger ring directly connects the nerves and the heart. Marriage is considered a secret bond, as opposed to physical connectivity (Allendorf and Ghimire, 2012). Notably, Saint Paul once compared the marriage relationship to the relationship between Christ and the Church.

Marriage, Gender and Sex in a Contemporary Chinese Village Sun-Pong Yuen, Pui-Lam Law, Yuk-Ying Ho, Fong-Ying Yu, 2015-07-17 This book explores changing concepts of marriage and gender relationships and attitudes toward sex in a rural Chinese community over the past five decades. The book is based on a study of an industrialized peasant village in Guangdong Province from 1994 to 1996 and subsequent visits from 2000 to 2002. According to the authors, the rural economic reforms of the 1980s in southern China have challenged and reinforced the deep structure of Chinese familism, and this has led to tensions between tradition and modernity. The first section of the book explores how attitudes toward marriage and courtship have changed over the past fifty years through personal accounts of three different marriages from different generations. In Part II, the transition from a traditional to a modern society is discussed from the perspective of several women from different generations. The third section focuses on sexual relationships and the growing sex trade in the village. Part IV includes updates to the original survey and takes a look at village politics.

Gender and Popular Visual Culture in India Francis Philip Barclay, Kaifia Ancer Laskar, 2023-11-03 Perhaps male mindedness seems to have adapted to changing contemporary circumstances to become more covert and conspiratorial. Sexist suggestions through objectification and substantiated subordination for instance may have been explicit in Indian media a decade earlier. But in the contemporary times of online social media and vociferous feminism, such openness of unfairness against women in the media will more often than not be met with strife and unpalatable backlash, fearing which blatant prejudice is prudently steered clear of. It is hence understandable that patriarchy to sustain itself as a culture has adapted to become more benevolent in an increasingly hostile environment. To identify such sly and stealthy sexism embedded in media content, one may need a reconfigured grasp of contemporary feminist issues and an altered nuance for isolation and identification of discriminatory depictions. This book exposes redefined and hidden sexism that predominates the popular visual culture of India, particularly investigating mass and new media representations that are a prime part of and have a domineering effect on the ensemble of popular visual culture and characterises contemporary feminist movements. It binds a collection of contemporary Indian case studies of sexism and feminism encompassing communication media such as print, cinema, television, Web series, and social media. There is a lack of book titles that study media sexism in the present times, and the proposed book aims to explore an unexplored area that is of social and scholarly importance. This book highlights the duality of media platforms while media is a critical tool associated with fourth wave feminism; they still remain to be a deterrent to the development of women, engendering inherent and age-old patriarchal notions. This book will be an eye opener to the general readers about benevolent sexism and train them to identify sexism hidden in seemingly pro-women media representations.
