

The background of the image is a dark, atmospheric scene from the game Resident Evil 4. It features the character Leon S. Kennedy on the left, looking towards the right, and a large, menacing Bionrae (a giant spider-like creature) on the right. The scene is set in a dark, rocky environment with some foliage.

Vv.,2015-04-21T00:00:00+02:00 The digital age has witnessed the development of a new kind of archive immaterial living and moving largely user generated and conceived for managing a wide variety of audio visual materials besides traditional films and videos The first part of this anthology investigates the ways in which media forms like web documentaries video art

and digital art web series amateur productions and also mobile films can be stored and preserved within the new digital repositories. The second part focuses on archival and preservation practices of the video game. This approach understands the archive not simply as a memory box but as a fully contemporary practice that locates new media objects in the present and acknowledges their changing cultural and social configurations. The democratic often immaterial living mobile nature of contemporary archives forces us to question whether or not the traditional notion of the archive still has a heuristic value. Or if it would be perhaps better to reject any conventional idea of archive and embrace the notion of an archive. *Resident Evil 4 Remake Walkthrough and Guide* Tia Richardson, 2023-12-07 Welcome to our Resident Evil 4 Remake Walkthrough and Guide [Resident Evil 4 Remake Complete Guide - Walkthrough - Tips & More](#) Evy, 2024-05-05 Our complete guide and walkthrough for Resident Evil 4 Remake will help new and returning players find their way around each main chapter to see the credits roll. In addition, the directory will have guides on how to find every weapon, solve every single puzzle, find locations of collectibles, boss battle tips, and much more. *Against Flow* Braxton Soderman, 2021-04-27 A critical discussion of the experience and theory of flow as conceptualized by Mihaly Csikszentmihalyi in video games. Flow as conceptualized by the psychologist Mihaly Csikszentmihalyi describes an experience of being in the zone of intense absorption in an activity. It is a central concept in the study of video games, although often applied somewhat uncritically. In *Against Flow*, Braxton Soderman takes a step back and offers a critical assessment of flow's historical, theoretical, political, and ideological contexts in relation to video games. With close readings of games that implement and represent flow, Soderman not only evaluates the concept of flow in terms of video games but also presents a general critique of flow and its sibling play. [Zombie Futures in Literature, Media and Culture](#) Simon Bacon, 2024-10-31 An innovative investigation into how zombie narratives over the past ten years have been specifically leading up to a unique intersection with the world as it exists in the 2020s. This book posits the undead as a vehicle to communicate humanity's pathway into and out of the ideological, health, and environmental pandemics of our time. Exploring depictions of zombies across literature, poetry, comics, television, film, and video games, Simon Bacon brings together this timely intervention into how zombies enable speculation about future modes of being in a changing world and represent the fluid notion of old and new normals. With each chapter moving beyond traditional readings of the undead, *Zombie Futures* situates the zombie as an evolving cultural imaginary at the centre of discourses around how human cognition and embodiment are effected by global realities such as consumerism, new technologies, climate change, and planetary degeneration. Structured around contagious, partisan ideologies, ecological sickness, mental health crisis, and the very literal COVID-19 virus, this book establishes how the zombie figure might manifest post-human and post-normative futures. Works featured include graphic novels and comics like *The West*, *Zombies Crossed*, and *Endzeit*; the South Korean series and films *Kingdom*, *Train to Busan*, and *Peninsula*; the *Last of Us* and the *Resident Evil* game franchises; Bollywood horror anthology *Ghost Stories*; Joss Whedon's *Serenity*; *Cargo*; and literature such as *The Girl with All the Gifts*; the fiction of

Stephen Graham Jones and Ryan Mecum's *Zombie Haiku* In a time when popular culture and scholarship has been overrun with the undead this original study offers a refreshing look at the zombie and what it can tell us about our world going into and emerging from global catastrophe
