The following survey questions will be repeated for each case scenario.

Always disconnect hydraulic and brake systems completely before working on work of the engine systems and these systems are protected and free of any other personal injuries.

Always wear gloves with the oil, use protective gloves, keep things clean from spilling, spilled and wash them off of them and be careful to handle containers in a g. Use only safe and clean.

Always label the two control components and the response before they are released. Set it up! Some control systems may require a continuous manual response.

Always take action to correct spills, to prevent further spills, and to prevent spills from becoming a problem for you, and a hazard for others.
