Designing for Privacy and its Legal Framework Aurelia Tamò-Larrieux, 2018-11-03 This book discusses the implementation of privacy by design in Europe a principle that has been codified within the European Data Protection Regulation GDPR While privacy by design inspires hope for future privacy sensitive designs it also introduces the need for a common understanding of the legal and technical concepts of privacy and data protection By pursuing an interdisciplinary approach and comparing the problem definitions and objectives of both disciplines this book bridges the gap between the legal and technical fields in order to enhance the regulatory and academic discourse The research presented reveals the scope of legal principles and technical tools for privacy protection and shows that the concept of privacy by design goes beyond the principle of the GDPR The book presents an analysis of how current regulations delegate the implementation of technical privacy and data protection measures to developers and describes how policy design must evolve in order to implement privacy by design and default principles

Emmerson, 2003-08-01 The region's most powerful organization ASEAN is being challenged to ensure security and encourage democracy while simultaneously reinventing itself as a model of Asian regionalism. Should ASEAN's leaders defend a member country's citizens against state predation for the sake of justice and risk splitting ASEAN itself? Or should regional leaders privilege state security over human security for the sake of order and risk being known as a dictators club? Should ASEAN isolate or tolerate the junta in Myanmar? Is democracy a requisite to security or is it the other way around? How can democratization become a regional project without first transforming the Association into a people-centered organization? But how can ASEAN reinvent itself along such lines if its member states are not already democratic? How will its new Charter affect ASEAN's ability to make these hard choices? How is regionalism being challenged by transnational crime, infectious disease, and other border-jumping threats to human security in Southeast Asia? Why have regional leaders failed to stop the perennial regional haze from brush fires in democratic Indonesia? Does democracy help or hinder nuclear energy security in the region? In this timely book, the second of a three-book series focused on Asian regionalism, ten analysts from six countries address these and other pressing questions that Southeast Asia faces in the twenty-first century.
