**Lman Test Papers Maths Psle (2e) , Essential Review Maths Psle ,2008 Maths Without Tears Psle , My Exam Companion Maths Psle , International Perspectives on Language and Work** Stéphanie Cassilde,Adeline Gilson,2025-07-02 This volume expands the definitions of language and work in researching their mutual influences It considers language as a working tool a vector of occupational identity and so on and work as the needed daily interrelation tasks communication constraints and so on The volume covers various national contexts India France Argentina Morocco Portugal Palestine Brazil Singapore and Canada The diversity of countries and linguistic spaces presented here enriches the perspectives in terms of transferring the insights from one situation to another The specific cases discuss among others how an occupation may be structured by language use how language embeds occupations within certain social contexts challenges of teaching in multilingual classrooms and how language affects therapeutic discourse and communication between patients and doctors The chapters provide detailed contexts and backgrounds so that readers can enjoy entering into each context and seeing similarities and differences with their own research field to incorporate the findings into their own research This volume is intended for sociologists interested in professionalisation industrial and occupational sociology sociology of work public health and management research The Quirky Kampung Tales Of Ijan And His Early School Years Saiful Lizan Muhamed,2022-11-30 The book is generally written in a humorous tone but there are poignant moments in the book where the narration takes on a more serious or sad tone where they are needed The book is about the growing up years of a boy called Ijan who grew up in a fast developing Singapore in the 1970s and 1980s in two different villages or kampung as they are called in Singapore Although the concept or notion of a kampung is now gone in the developed city of Singapore the book invites the readers to take a journey back to a historical Singapore as a backdrop Ingrained in the ways of the village Ijan the kampung boy had also attended schools which were very structured and the schools were where his parents were teachers As a kampung boy Ijan was accustomed to his roaming ways and as a teacher s son he was expected to behave This was further compounded where it seemed Ijan s DNA had been hardwired with the characteristics of what was known in the village as a pusu dua anomaly He was born with two hair whirls at the back of his head This led to a somewhat disorderly hair disposition for Ijan but more significantly the villagers believed this anomaly brought with it certain traits to the afflicted boy It was believed that a pusu dua boy would be a maverick of sorts hyperactive and stubborn to say the least He was also believed to be blessed with a very endearing character especially to animals The interesting contrast in environment character and expectations are the themes that carry the narration in this book with Ijan as the protagonist Governance for Harmony in Asia and Beyond Julia Tao,Anthony B. L. Cheung,Martin Painter,Chenyang Li,2009-12-18 Harmony has become a major challenge for modern governance in the twenty first century because of the multi religious multi racial and multi ethnic character of our increasingly globalized societies Governments all over the world are facing

growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies This book examines the idea of harmony and its place in politics and governance both in theory and practice in Asia the West and elsewhere It explores and analyses the meanings mechanisms dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions The book argues that in Western political thought which sees politics as primarily concerned with resolving social conflicts and protecting individual rights the concept of harmony has often been neglected In contrast since earliest times harmony or he has been a profound theme in Confucian thought and current leaders of many East Asian governments and the Chinese government have explicitly declared that the realisation of a harmonious society is their aim The book also assesses how harmony is pursued jeopardized or deformed in the real world of politics based upon empirical analysis of a variety of different cultural social and political contexts including China Hong Kong Singapore Malaysia Singapore Vietnam Denmark Latin America and the Scandinavian countries It shows how harmony as an organizing concept can help to promote new thinking in governance and overcome problems of modern day governance like distrust adversarial conflicts hyper individualism coercive state intervention and free market alienation It also discusses the potential problems posed by the pursuit of harmony in particular in the grave threat of totalitarianism and considers how these risks could best be mitigated

Choo,Woon Chia Liu,Bee Leng Chua,2024-12-02 Suzanne S Choo Woon Chia Liu and Bee Leng Chua offer a dynamic look into the tripartite relationship between education research policy and

practice that characterizes Singapore's changing education landscape. Over the years, Singapore has garnered increasing attention internationally for its world-class education system. Pushing back against the stereotypical notions of exam and teacher-centric education in Asia, the contributors to this volume discuss opportunities as well as challenges in Singapore's innovation towards constructivist, critical, culturally responsive and cosmopolitan forms of learning. Highlighting the pedagogical innovation and its context in Singapore's teacher education and schools, the authors bridge theory and practice by providing an understanding of innovative practices informed by key shifts in Singapore's education policies and the key conceptual principles informing these practices. More importantly, it provides on-the-ground empirical insights into the ways these innovative pedagogical practices are enacted in the classroom and in teacher education programmes. Each chapter provides an in-depth understanding of how these pedagogies are applied across various subject disciplines including guided problem solving in Mathematics, games-based pedagogy in Science, multimodal literacies in language, ethical criticism in Literature, Nonlinear Pedagogy in Physical Education, multicultural approaches in music and dialogic pedagogy in drama among others. Balancing theoretical and empirical focus, this resourceful text will be of interest to students, researchers and practitioners in educational development, pedagogy and teacher education as well as policymakers across international fields in education.
