**Key Topics in Psychiatry** Sheena C. Jones, Kate Roberts, 2007-01-01 This title is directed primarily towards trainee psychiatrists sitting MRCPsych or similar exams and qualified psychiatrists. Covers the vital areas for each topic as relevant summaries of journal articles, clinical trials, government directives, national guidelines. Presents the information in an easily accessible form through the use of bullet points, lists, tables and diagrams. trainees     Memory, Anniversaries and Mental Health in International Historical Perspective Rebecca Wynter, Jennifer Wallis, Rob Ellis, 2023-07-19 This book is the first to explore memory misremembering forgetting and anniversaries in the history of psychiatry and mental health It challenges simplistic representations of the callous nature of mental health care in the past while at the same time eschewing a celebratory and uncritical marking of anniversaries and individuals Asking critical questions of the early Whiggish histories of mental health care the book problematizes the idea of a shared professional and institutional history and the abiding faith placed in the reform of medicine administration and even patients It contends that much post 1800 legislation drafted to ensure reform acted to preserve beliefs about the bad old days and a brighter future in the state memories of imperial powers which in turn exported these notions around the world Conversely the collection demonstrates the variety of remembering and forgetting building on recent interest in the ideological and cultural linkages between past and present in international psychiatric practice In this way it seeks to trace the pathways of memory exploring the direction of travel and the perpetuation remodeling and uprooting of recollection Chapter The New Socialist Citizen and Forgetting Authoritarianism Psychiatry Psychoanalysis and Revolution in Socialist Yugoslavia is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)     **Psychiatry**
