B. Marie Brady-Whitcanack,2011-02-24 The text is a hermeneutic and field theory analysis of events that occurred during the first of two doctoral degree programs at a major state university The study considers challenges to traditional curriculum in higher education and possible links to conflicts occurring at some major university campuses **Family or Foe** Jewel Garrison,2017-05-22 Personality disorder is rife in Ghana As an experienced mental health practitioner I have had the opportunity to observe the behaviours of many people and this has led me to suspect that many of them may be suffering from some form of a personality disorder however in the absence of any formal knowledge about mental illness the Ghanaian public appears totally oblivious to this fact This coupled with the stigma of mental illness results in denial This book inspired by the lack of acknowledgement and or recognition of mental illness by the citizens of Ghana gives insight into and highlights the issues involved in this subject area with regards to a person suffering from what would appear to be a personality disorder It demonstrates how easy it is to apply theory to practice it takes the reader through a step by step critical review of the literature and theories associated with personality and personality disorder to arrive at a diagnosis of an individual with psychopathology It demonstrates the application of the literature in investigations and assessments in mental health and is a must read for anyone in the fields of medicine psychology and mental health nursing particularly students lecturers and teachers The critical analysis review of the literature and the demonstration of the correlation between theories the literature and relevant individual information and assessment to achieve the desired results of diagnosing the disorder are expertly competently and proficiently executed to highlight the ease with which anyone can do so particularly learners For the layperson this book gives insight into our day to day challenges of living with an individual suffering from a mental disorder specifically severe personality disorder of the psychopathic and sociopathic types **A Student's A-Z of Psychology** Kate Grieve,Vasi Van Deventer,M. Mojapelo-Batka,2006 This collection of modular study units for first level psychology students provides core information about specific topics with units that work independently of each other and can be interchanged or omitted as needed It includes chapters on cognition stress management the human nervous system interpersonal relationships and personality *Taking in the Good Based Bibliotherapy* Dr. John Jacob,2017-05-19 Human life is a combination of positive and negative experiences Although there is an infinite number of positive experiences in life people are prone to take in negative ones in their daily lives When people become depressed there is a swing in their brain states and the patterns that direct attention thinking and behavior in specific ways mainly with regard to losses and threats Memories of earlier losses and threats are activated Attention and focusing on positive events become difficult Focusing on negative events including the autobiographical memory becomes easy Moreover depressed people markedly seek and take in negative experiences due to their negative life experiences events and dysfunctional cognitive appraisals Psychological intervention is one of the most commonly sought forms of help when the female adolescents experience depression As the

world of the adolescents alters radically mental health professionals must be equipped with proficient strategy to address the various aspects of depression Since the theory on taking in the good proposes a new therapy approach with effective positive neuroplasticity strategy as important ingredients it is to be expected that a combined intervention program based on this theory and principles of bibliotherapy would be dexterous enough to address depression in all its heterogeneous nature

Thus I Became Stress Free B. Joshi Ph. D.,2009 Whether you have ever pondered in some of your free time that why you are doing whatever you are doing In most cases the answer would be To have more money To help my family To get higher education To achieve fame etc etc and many different answers like this But if you try to look little deeper don t you think that all the answers are same namely To achieve happiness Each of us is defining the same thing in his her own way depending on one s priorities This could also be said this way To have less sadness To have less worries To have less problems etc etc and many more answers like this This being a very broad topic let us for the present concentrate on having less worries Or Being worry free Though it is not the same but being Stress Free comes very close to it It is not that by some magic wand you would start having no problems but it could be very possible that you could handle the problems in a different way or you could manage your stress causing sources in a better way Said in a different way You could manage to be Stress Free That aspect of managing is dealt with in this book

Development as Peace Wole Adegbile,2023-08-04 The colonial definition of development has not served Africa well While Western assessments have generally revolved around a nation s GDP infrastructure and the like African cultures and the Yoruba people in particular have traditionally measured development in relation to the amount of peace experienced in a society and the wellbeing of its people In this study Dr Wole Adegbile examines the political theological and cultural contexts of contemporary development activity in Africa including the impact of modernization theory on African nation states He then draws on traditional Yoruba political thoughts and practices including the similarities between the Yoruba conception of a thriving community and the biblical principle of shalom to formulate a contextual political theology of development that would holistically address cultural identity and spiritual restoration Rooted in the intersection of Scripture and traditional African values this book suggests a way forward for African society its political leaders and the church
