developments and technologies from the engine transmission and chassis as well as hybridization and electric mobility  
sectors In 2014 the Schaeffler Symposium with the motto Solving the Powertrain Puzzle took place from 3th to 4th of April in  
Baden Baden Mobility for tomorrow is the central theme of this proceeding The authors are discussing the different  
requirements which are placed on mobility in different regions of the world In addition to the company s work in research  
and development a comprehensive in house mobility study also provides a reliable basis for the discussion The authors are  
convinced that there will be a paradigm shift in the automotive industry Issues such as increasing efficiency and advancing  
electrification of the powertrain automatic and semi automatic driving as well as integration in information networks will  
define the automotive future In addition the variety of solutions available worldwide will become increasingly more complex  
and mobility patterns will also change rapidly However this does not mean that cars will drive virtually in the future  
Powertrains based on internal combustion engines will still dominate for a very long time and demonstrate new strengths in  
combination with hybrid drives Transmissions will also gain in importance as the link between the internal combustion  
engine and electric motor The proceeding Solving the Powertrain Puzzle contains 34 technical papers from renowned experts  
and researchers in the field of automotive engineering
