what motivated them to do what they did This book is the second volume of an attempt to capture and record some of the
answers to these questions either from the pioneers themselves or from those persons who worked most closely with them As
with the first volume we have attempted to include as many pioneers as possible but we know that there are still many that
are not included in this or the previous volume As we have posed questions rummaged through files and oft neglected books
and probed the memories of many individuals we have come to realize our list of true pioneers is ever growing As we

consider our list of pioneers we know that there are names on the list that most of us readily recognize We also fully realize that there are names of whom few of us have heard yet who were significant in their roles as mentors or idea development and teaching We continue to be impressed with our science education family tree ever branching out to more individuals and connections The stories in this volume continue to demonstrate how vital this network was in supporting the individual pioneers during their journey in difficult times and continues to be for those of us today in our own enterprise **SDEA Journal** South Dakota Education Association,1928 **Catalog of Copyright Entries.
