The European System for The Protection of Human Rights Ronald Macdonald, F. Matscher, H. Petzold, 1993-01-01

The Protection of Minorities in the Wider Europe M. Weller, D. Blacklock, K. Nobbs, 2008-09-30 This book examines whether we are moving towards an integrated regional system of legal provision for minorities It illustrates the tension between newer member states many of which have an interest in seeing minority issues addressed and established members which remain hesitant in committing themselves fully to a minority rights regime

Extending Protection to Migrant Populations in Europe Roberta Medda-Windischer, Caitlin Boulter, Tove H. Malloy, 2019-07-16 This comprehensive and innovative volume focuses on the usefulness and relevance of extending the scope of protections already in place for national minorities old minorities to migrant populations new minorities in Europe Delving into a highly relevant but under researched issue the book examines the feasibility of expanding the system of protection for national minorities to migrant groups as well as considering issues of diversity security socio economic concerns and identity Taking a multidisciplinary perspective and combining insights from political science law sociology and anthropology it asks the central question of how far the extension of policies and rights currently specific to national minorities is conceptually meaningful and beneficial to the integration of new minorities In doing so it questions the feasibility and appropriateness of extending the scope of the protections already in place for national minorities to other categories of population This book will be of key interest to scholars students and practitioners of European Union politics migration studies minority studies and more broadly of sociology international law and human rights

Law and Governance in an Enlarged European Union George A. Bermann, Katharina Pistor, 2004-11 This book's principal aim is to critically address the institutional and substantive legal issues resulting from European enlargement chiefly those relating to the legal foundations on which the enlarged Union is being built The accession of new Member States creates the potential for a stronger and more powerful Europe Realising this potential however will depend on the ability of the EU to develop functional and effective governance structures both at the European level and at the level of the individual Member States While the *acquis communautaire* will ensure that formal laws in the new Member States will be aligned with those of existing members the question remains as to how effective institutions will be in implementing changes and what effects the imposed changes will have on the legitimacy of the new legal framework This book containing the work of leading scholars in law and social sciences examines the current and future legal framework for EU governance and the role that new members will or will not play in the creation of that framework paying particular attention to the specific challenges membership in the EU poses to the acceding states of Central and Eastern Europe It is a book which will contribute to and influence debates over constitutionalism and legal harmonisation in the EU

European Union Non-Discrimination Law and Intersectionality Anna Lawson, 2016-07-22 This book contributes to a critical reflection of current legislative and jurisprudential developments in Non Discrimination

Law focusing on the European Union The book is focused on intersectionality between gender race and disability and the question of whether and to what extent this intersection can be adequately addressed in EU law The discussion rests on two basic assumptions First the multiplication of discrimination grounds in EU law and other legal regimes should not result in a dilution of the demands of equality law Accordingly the book focuses on the three key grounds race gender and disability These constitute nodes around which other discrimination grounds can be grouped Second any multi ground non discrimination law framework needs to engage with the question of discrimination on several grounds This book provides a critical evaluation of some of the problems presented by such intersectionality and an opportunity to explore the issues in depth This collection offers some new proposals relating to the regrouping of identity categories and to the general approach to socio legal research in the field It also contains a comparative section which expands on practical experiences with intersectionality and law and a section dedicated to juridical responses to intersectionality The book will be a valuable resource for researchers academics and those working in the area of EU non discrimination law and policy

National Minorities in Putin's Russia Federica Prina, 2015-10-05 Using a human rights approach the book analyses the dynamics in the application of minority policies for the preservation of cultural and linguistic diversity in Russia Despite Russia's legacy of ethno cultural and linguistic pluralism the book argues that the Putin leadership's overwhelming statism and promotion of Russian patriotism are inexorably leading to a reduction of Russia's diversity Using scores of interviews with representatives of national minorities civil society public officials and academics the book highlights the reasons why Russian law and policies as well as international standards on minority rights are ill equipped to withstand the centralising drive toward ever greater uniformity While minority policies are fragmented and feeble in contemporary Russia they are also centrally conceived which is exacerbated by a growing democratic deficit under Putin Crucially in today's Russia informal practices and networks are frequently utilised rather than formal channels in the sphere of diversity management Informal practices the book argues can at times favour minorities yet they more frequently disadvantage them and create the conditions for the co-optation of leaders of minority groups A dilution of diversity the book suggests is not only resulting in the loss of Russia's rich cultural heritage but is also impairing the peaceful coexistence of the individuals and groups that make up Russian society

Developments in EU External Relations Law Marise Cremona, 2008 External relations is currently among the most dynamic areas of EU law This volume gathers leading analysts to assess core recent developments in the field taking stock of the current law and potential developments in major policy areas Together these essays present a clear picture of the complex development of EU external relations and of the struggle for coherence in the increasingly active visible and self conscious role played by the EU as a participant in the international legal order

Realising Linguistic, Cultural and Educational Rights Through Non-Territorial Autonomy David J. Smith, Ivan Dodovski, Flavia Ghencea, 2022-12-01 This volume assesses Non Territorial Autonomy NTA in terms of its practical capacity to support the linguistic cultural and educational rights of national minority groups across Europe The fact that 2023 marks the 25th anniversary of the coming into force of the Council of Europe Framework Convention on National Minorities FCNM and European Charter for Regional and Minority languages ECRML makes this book especially timely and relevant Its numerous detailed empirical studies one of which uses FCNM reporting as a benchmark give a picture of the extent or otherwise to which international minority rights standards are actually being realized through various NTA arrangements In keeping with the principles laid out in these foundational documents the contributions to this volume acknowledge that when it comes to the effective delivery of linguistic cultural and educational rights NTA is best regarded not as an alternative but as a complement toterritorially based arrangements This is an open access book The SAGE Deaf Studies Encyclopedia Genie

Gertz, Patrick Boudreault, 2016-01-05 The time has come for a new in depth encyclopedic collection of articles defining the current state of Deaf Studies at an international level and using the critical and intersectional lens encompassing the field The emergence of Deaf Studies programs at colleges and universities and the broadened knowledge of social sciences including but not limited to Deaf History Deaf Culture Signed Languages Deaf Bilingual Education Deaf Art and more have

served to expand the activities of research teaching analysis and curriculum development The field has experienced a major shift due to increasing awareness of Deaf Studies research since the mid 1960s The field has been further influenced by the Deaf community's movement resistance activism and politics worldwide as well as the impact of technological advances such as in communications with cell phones computers and other devices A major goal of this new encyclopedia is to shift focus away from the Medical Pathological Model that would view Deaf individuals as needing to be fixed in order to correct hearing and speaking deficiencies for the sole purpose of assimilating into mainstream society By contrast The Deaf Studies Encyclopedia seeks to carve out a new and critical perspective on Deaf Studies with the focus that the Deaf are not a people with a disability to be treated and cured medically but rather are members of a distinct cultural group with a distinct and vibrant community and way of being

Collective Rights and the Cultural Identity of the Roma Claudia

Tavani,2012-09-03 Is the use of mechanisms that only focus on the protection of individual human rights sufficient to protect the cultural identity of minorities Much more can be achieved by adopting a system that applies the principles of equality and non discrimination and encompasses the recognition of a collective right to cultural identity Culture and cultural identity are indeed important for the identification of groups and ethnicity But are the Roma an ethnic group Are they a minority In answering these questions Italy is used as a case study to illustrate the limits of non discrimination provisions and the need to recognise the collective right to cultural identity

The Europeanization of Central and Eastern Europe Frank

Schimmelfennig,Ulrich Sedelmeier,2005 This book demonstrates the importance of the credibility and the costs of accession conditionality for the adoption of EU rules in Central and Eastern Europe

Turkey's Accession to the European Union

Edel Hughes,2010-10-04 Turkey's accession to the European Union is undoubtedly one of the Union's most contested potential enlargements The narrative that dominates the debate surrounding this issue primarily relates to problems such as a lack of respect for fundamental human rights in Turkey the Kurdish question and the continuing stalemate concerning northern Cyprus This book looks at these issues but also proposes that a review of Turkey's experience with the EU in its numerous incarnations suggests that these concerns may mask a deeper disquiet Whilst there are several questions that Turkey must address particularly in the area of human rights guarantees the concerns which raise debates regarding Turkish membership are not issues that are unique to Turkey Turkey's EU experience also raises fundamental questions about religion and the EU project that have greater implication than simply Turkish accession Through the lens of the Turkish example this book addresses these broader questions such as the nature of European identity Europe's Christian past the limits of pluralism and the fundamental question of religion in the European public sphere This book will be of great interest to those engaged in research on European law and politics at undergraduate or postgraduate level It is also aimed at academics with an interest in human rights and the European Union and with a regional interest in Turkey

EU and the Balkans Leila Simona Talani,2020-12-15 Integration and disintegration are the two poles of the economic political and

security discourse in an area the Balkans and Southern Eastern Europe SEE which over the past fifteen years has been the stage of dramatic events Integration and disintegration are the two dimensions of an identity problem that many feel the area can solve by joining the European Union and diffusing its many conflicts in the peaceful waters of Europeanisation However quite apart from the obvious point that the accession process cannot be taken for granted in relation to many of the new Balkan countries integration into the EU can be argued as having been and still being a further catalyst for disintegration This book assesses the extent to which the integration of the Balkans into the EU will either foster or discourage the integration of the area itself as well as the winners and losers under this process The book addresses the topic in a multidisciplinary way The contributions are the result of a fruitful co operation between scholars from the Balkans the UK and the US The book tackles the issue of the relation between the EU and the Balkans in all its controversial and contradictory dimensions
