Answer the questions below. You are not required to answer as you watch, but you may want to take notes or even answer in full. We will go over the answers after we watch each day.

1. What does Jerome place on the comb at his workstation?
A hair
2. Why isn't Vincent allowed to go to the private school?
Insurance won't cover an accident
3. What is Vincent's life expectancy? The doctor states he will die from what?
30.2 years; Heart failure
4. According to the geneticist, we have enough of this built in already. What is it?
Imperfection (we don't need any more burdens)
5. What is Vincent's and his brother's favorite game?
Chicken - Swimming
6. "Anton was by far the stronger swimmer and he had no excuse to..." what?
Fail
7. What is the name given to discrimination against people because of their genetic profile?
Genoism → It's illegal. "We now have discrimination down to a science."
8. "After all there is no gene for..." what?
Fate
9. What color is Eugene's medal? In what sport did he win it?
Silver. Swimming.
10. What is Eugene's burden?
"The burden of perfection"
11. What is a "borrowed ladder"?
Someone, like Vincent, who takes someone else's genetic profile.
12. What does Vincent leave behind at the murder scene?
Eyelash
13. The director says, "No one exceeds their..." what?
Potential
14. Why is it unlikely that Irene will travel into space?
She has a heart condition; an "acceptable risk of heart failure"
15. What is the detective doing before going to work, when he gets a call on his watch?
Swimming
16. Why does the director claim that he couldn't have committed the murder?
Look at my profile: not a single violent bone in my body?
17. What does Irene leave behind at the club where she and Jerome are dancing?
A tin with her heart medication.
18. Who killed the mission director?
The director
19. Who does the detective leading the murder investigation turn out to be?
Anton, Vincent's brother
20. When Anton asks Vincent, "How are you doing this?", how does Vincent answer?
"I never saved anything for the way back"
21. Why does Eugene think that he got the better end of the deal?
"I only lent you my body. You lent me your dream."
22. What is Dr. Lamar's story? What is special about his son? Is he Vincent's dad? How long has he known about Vincent? His son's genes are not as good as they're supposed to be: he's probably an invalid. Dr. Lamar is not Vincent's dad because Vincent's parents are dead. The doctor has known for some time: he watches him urinate with the wrong hand every time.

Stories About Science in Law David S. Caudill, 2016-04-01 Presenting examples of how literary accounts can provide a supplement to our understanding of science in law this book challenges the view that law and science are completely different It focuses on stories which explore the relationship between law and science especially cultural images of science that prevail in legal contexts Contrasting with other studies of the transfer and construction of expertise in legal settings this book considers the intersection of three interdisciplinary projects law and science law and literature and literature and science Looking at the appropriation of scientific expertise into law from these perspectives this book presents an original introduction into how we can gain insight into the use of science in the courtroom and in policy and regulatory settings through literary sources

Work Mate Marry Love Debora L. Spar, 2020-08-18 A crucial guide to life before and after Tinder IVF and robots What will happen to our notions of marriage and parenthood as reproductive technologies increasingly allow for newfangled ways of creating babies What will happen to our understanding of gender as medical advances enable individuals to transition from one set of sexual characteristics to another or to remain happily perched in between What will happen to love and sex and romance as our relationships migrate from the real world to the Internet Can people fall in love with robots Will they In short what will happen to our most basic notions of humanity as we entangle our lives and emotions with the machines we have created In Work Mate Marry Love Harvard Business School professor and former Barnard College president Debora L Spar offers an

incisive and provocative account of how technology has transformed our intimate lives in the past and how it will do so again in the future Surveying the course of history she shows how marriage as we understand it resulted from the rise of agriculture and that the nuclear family emerged with the industrial revolution In their day the street light the car and later the pill all upended courtship and sex Now as we enter an era of artificial intelligence and robots how will our deepest feelings and attachments evolve In the past the prevailing modes of production produced a world dominated by heterosexual mostly monogamous two parent families In the future however these patterns are almost certain to be reshaped creating entirely new norms for sex and romance and for the construction of families and the raising of children Steering clear of both techno euphoria and alarmism Spar offers a bold and inclusive vision of how our lives might be changed for the better

Christian Bioethics C. Ben Mitchell,D. Joy Riley,D. Joy Riley, MD,2014-12-15 A biblically informed guidebook for Christians facing difficult health care decisions from the making of life infertility organ donation cloning and taking of life abortion euthanasia to the technologically driven faking of life genetic engineering etc **Encyclopedia of Cryptography, Security and Privacy** Sushil Jajodia,Pierangela Samarati,Moti Yung,2025-01-10 A rich stream of papers and many good books have been written on cryptography security and privacy but most of them assume a scholarly reader who has the time to start at the beginning and work his way through the entire text The goal of Encyclopedia of Cryptography Security and Privacy Third Edition is to make important notions of cryptography security and privacy accessible to readers who have an interest in a particular concept related to these areas but who lack the time to study one of the many books in these areas The third edition is intended as a replacement of Encyclopedia of Cryptography and Security Second Edition that was edited by Henk van Tilborg and Sushil Jajodia and published by Springer in 2011 The goal of the third edition is to enhance on the earlier edition in several important and interesting ways First entries in the second edition have been updated when needed to keep pace with the advancement of state of the art Second as noticeable already from the title of the encyclopedia coverage has been expanded with special emphasis to the area of privacy Third considering the fast pace at which information and communication technology is evolving and has evolved drastically since the last edition entries have been expanded to provide comprehensive view and include coverage of several newer topics *Psychology* Philip G. Zimbardo,Ann L. Weber,Robert L. Johnson,2003 Each chapter of this brief manageable textbook focuses on the key questions and core concepts of psychology supported by an extensive pedagogical structure designed to aid students The text integrates a cross cultural and multicultural perspective to make psychology meaningful for all readers Gender, Race, and American Science Fiction Jason Haslam,2015-05-08 This book focuses on the interplay of gender race and their representation in American science fiction from the nineteenth century through to the twenty first and across a number of forms including literature and film Haslam explores the reasons why SF provides such a rich medium for both the preservation of and challenges to dominant mythologies of gender and race Defining SF linguistically and culturally the study

argues that this mode is not only able to illuminate the cultural and social histories of gender and race but so too can it intervene in those histories and highlight the ruptures present within them. The volume moves between material history and the linguistic nature of SF fantasies from the specifics of race and gender at different points in American history to larger analyses of the socio-cultural functions of such identity categories. SF has already become central to discussions of humanity in the global capitalist age and is increasingly the focus of feminist and critical race studies. In combining these earlier approaches, this book goes further to demonstrate why SF must become central to our discussions of identity writ large of the possibilities and failings of the human past, present and future. Focusing on the interplay of whiteness and its various others in relation to competing gender constructs, chapters analyze works by Nathaniel Hawthorne, Mary E. Bradley Lane, Edgar Rice Burroughs, Philip Francis Nowlan, George S. Schuyler and the Wachowskis, Frank Herbert, William Gibson and Octavia Butler. Academics and students interested in the study of Science Fiction, American literature and culture and Whiteness Studies as well as those engaged in critical gender and race studies will find this volume invaluable.

Approaches to Teaching Wiesel's Night Alan Rosen, Alan Charles Rosen, 2007. Elie Wiesel is an internationally known author, human rights advocate and lecturer. His first book, *Night*, was published in Yiddish in 1956, in French in 1958, and in English in 1960. A new English translation appeared in 2006 and has become a classic memoir of a Jewish survivor of the Holocaust. The seventeen essays of this volume in the MLA series *Approaches to Teaching World Literature* examine the historical, cultural and literary contexts of Wiesel's book as well as strategies for teaching it in the classroom. Part 1, Materials, provides resources on the Jewish ghettos and concentration camps of World War II, on the Jewish faith and religious practices, on the genre of victims' diaries, on the critical reception of *Night*, on Wiesel's other work, and on available audiovisual materials. Part 2, Approaches, addresses many subjects among them: Wiesel's narrative techniques, the representation of Auschwitz, the use of different languages, the comparison of Wiesel with Primo Levi, the problems of memory and bearing witness, the Christian response to the Holocaust, and the challenge of teaching a grim and painful text to students.

The Routledge Companion to Science Fiction Mark Bould, Andrew M. Butler, Adam Roberts, Sherryl Vint, 2009-03-30. *The Routledge Companion to Science Fiction* is a comprehensive overview of the history and study of science fiction. It outlines major writers, movements and texts in the genre, established critical approaches and areas for future study. Fifty-six entries by a team of renowned international contributors are divided into four parts which look in turn at history, an integrated chronological narrative of the genre's development, theory, detailed accounts of major theoretical approaches including feminism, Marxism, psychoanalysis, cultural studies, postcolonialism, posthumanism and utopian studies, issues and challenges, and anticipates future directions for study in areas as diverse as science studies, music, design, environmentalism, ethics and alterity. Subgenres are viewed prismatically, tracing themes and developments within specific subgenres. Bringing into dialogue the many perspectives on the genre, *The Routledge Companion to Science Fiction* is essential reading for anyone interested in the history and the future of science fiction and the way it is taught and studied.
