infrastructure platforms and the organizational form of such TV      *Focus On: 100 Most Popular Television Series* by Universal Television Wikipedia contributors,      **We Now Disrupt This Broadcast** Amanda D. Lotz, 2018-04-06 The collision of new technologies changing business strategies and innovative storytelling that produced a new golden age of TV Cable television channels were once the backwater of American television programming recent and not so recent movies and reruns of network shows Then came *La Femme Nikita* *OZ* *The Sopranos* *Mad Men* *Game of Thrones* and *The Walking Dead* And then just as prestige cable became a category came *House of Cards* and Netflix Hulu Amazon Video and other Internet distributors of television content What happened In *We Now Disrupt This Broadcast* Amanda Lotz chronicles the collision of new technologies changing business strategies and innovative storytelling that produced an era termed peak TV Lotz explains that changes in the business of television expanded the creative possibilities of television She describes the costly infrastructure rebuilding undertaken by cable service providers in the late 1990s and the struggles of cable channels to produce and pay for original scripted programming in order to stand out from the competition These new programs defied television conventions and made viewers adjust their expectations of what television could be *Le Femme Nikita* offered cable's first antihero *Mad Men* cost more than advertisers paid *The Walking Dead* became the first mass cable hit and *Game of Thrones* was the first global television blockbuster Internet streaming didn't kill cable Lotz tells us Rather it revolutionized how we watch television Cable and network television quickly established their own streaming portals Meanwhile cable service providers had quietly transformed themselves into Internet providers able to profit from both prestige cable and streaming services Far from being dead television continues to transform      *Divine Programming* Charlotte E. Howell, 2020-03-02 In *Divine Programming* author Charlotte E Howell investigates the disconnect between dramatic television narratives of white Christianity and the religion they are meant to represent focusing on key series including *7th Heaven* *Friday Night Lights* *Supernatural* *Jane the Virgin* and *Daredevil*      *Мы срываем трансляцию. Как телевизор накрылся кабелем, а медиа — интернетом* Аманда Лотц, 2018 1990 2010      **The Measure of Progress** Diane Coyle, 2025-04 A book which explores how the digital transformation of the economy affects how we measure and interpret the true scale of innovation productivity and growth Statistics are an essential guide for better economic policies They also involve questions of freedom justice life and death as governments and increasingly machines use statistics to make decisions affecting people's lives This book argues that the conceptual framework underpinning today's economic statistics is out of date and makes it impossible to measure understand and respond to what is really happening in the economy According to Diane Coyle we have been interpreting the economy through the lens of a statistical framework developed in the mid twentieth century when a lack of goods and services rather than natural resources was the binding constraint on growth when the intangible value of intellectual property and digital assets were largely unaccounted for and when the most pressing economic policy challenge was managing demand rather than supply Today's challenges are vastly different Growth

in living standards in the rich economies has slowed significantly in recent decades despite dramatic innovation in digital technologies The geopolitical as well as the environmental landscape is fraught and our belief in democracy increasingly strained In *The Measure of Progress* Diane Coyle comprehensively explores how the digital transformation affects how we measure the economy and our capacity to interpret the true scale of innovation productivity and growth Her book also sets out some key principles for improving measurement A true understanding of the economy she argues will require different data collected in a different framework of categories and definitions Only then will policymakers businesses and individuals be able to shape a better sustainable future

**The Anti-Heroine on Contemporary Television** Molly J. Brost, 2020-11-24 In *The Anti Heroine on Contemporary Television* Transgressive Women Molly Brost explores the various applications and definitions of the term anti heroine showing that it has been applied to a wide variety of female characters on television that have little in common beyond their failure to behave in morally correct and traditionally feminine ways Rather than dismiss the term altogether Brost employs the term to examine what types of behaviors and characteristics cause female characters to be labeled anti heroines how those qualities and behaviors differ from those that cause men to be labeled anti heroes and how the label reflects society s attitudes toward and beliefs about women Using popular television series such as *Jessica Jones* *Scandal* and *The Good Place* Brost

acknowledges the problematic nature of the term anti heroine and uses it as a starting point to study the complex women on television analyzing how the broadening spectrum of character types has allowed more nuanced portrayals of women s lives on television

*Nostalgic Generations and Media* Ryan Lizardi, 2017-05-31 *Nostalgic Generations and Media* Perception of Time and Available Meaning argues that the cultural rise in nostalgic media has the multi generational impact of making the subjective experience of time speed up for those who are nostalgic as well as create a surrogate nostalgic identity for younger generations by continually feeding them the content of their elders This book is recommended for scholars interested in communication media studies and memory nostalgia studies
