Scroggie, 2014-12-22 These studies are not written for the scholar nor to promote scholarship but for the general reader and to quicken devotion though it is hoped the scholar will find the studies stimulating Attention is called to the following features An attempt is made by the arrangement of the text to indicate to some extent the principle of parallelism so characteristic of Hebrew poetry The paragraphing is intended to show the main divisions of each Psalm and speeches within a Psalm by one or more voices are shown in italic print Superscriptions and subscriptions are preserved with here and there a word of interpretation The theory of Dr J W Thirtle has been followed throughout namely that many superscriptions should be the subscriptions to the preceding Psalms and these have been so arranged Further details will be found in the Introduction Each Psalm has a Title and at the end a Thought which is designed to fix in the mind the main lesson of the Psalm To each is added a note which relates the Psalm to some incident in Christian story The Exposition aims as far as is practicable within its limits at giving interpretative homiletical and devotional help The acrostic Psalms are shown by the Hebrew alphabet in the left hand margin The verse numbers are arranged in a straight line on the left and are not allowed to interfere with the poetic form of the Psalm All references to Deity both by name and pronoun have the initial letters in capital type and this in several places has an interpretative value It is hoped that these several features combined may help to make the reading and study of the Psalms more interesting and profitable     *The Anchor Bible Psalms II 51-100*, 1968     *Disciple I Becoming Disciples Through Bible Study: Study Manual* Richard B. *The Womb and the Simile of the Woman in Labor in the Hebrew Bible* Karen Langton,2024-10-30 This book explores figurative images of the womb and the simile of a woman in labor from the Hebrew Bible problematizing previous interpretations that present these as disparate images and showing how their interconnectivity embodies relationship with YHWH In the Hebrew Bible images of the womb and the pregnant body in labor do not co occur despite being grounded in an image of a whole pregnant female body the pregnant body is instead fragmented into these two constituent parts and scholars have continued to interpret these images separately with no discussion of their interconnectivity In this book Langton explores the relationship between these images inviting readers into a wider conversation on how the pregnant body functions as a means to an end a place to access and seek a relationship with YHWH Readers are challenged and asked to rethink how these images have been interpreted within feminist scholarship with womb imagery depicting YHWH s care for creation or performing the acts of a midwife and the pregnant body in labor as a depiction of crisis Langton explores select texts depicting these images focusing on the corporeal experience and discussing direct references and allusions to the physicality of a pregnant body within these texts This approach uncovers ancient and current androcentric ideology which dictates that conception gestation and birth must be

controlled not by the female body but by YHWH The Womb and the Simile of the Woman in Labor in the Hebrew Bible is of interest to students and scholars working on the Hebrew Bible gender in the Bible and the Near East more broadly and feminist biblical criticism
