*Secular Meditation-Based Ethics of Responsibility (MBER)*

*Program Helene Hagège, 2023-01-05* An ethical solution to the current health ecological and financial problems we face is to mobilize our responsibility by overcoming our duality with the environment. It calls for changes in attitudes and behaviors that are not self-evident and can be facilitated by specific learning. Mindfulness-based interventions (MBI) are increasingly used in professional settings, particularly in therapy, because their effectiveness in terms of change is increasingly supported by scientific evidence. This book presents a detailed program aimed at developing an ethics of responsibility known as Mindfulness or Meditation-Based Ethics of Responsibility (MBER). It combines theoretical explanations, exercises, and secular meditations to propose rather than impose ethical guidelines accompanying participants in identifying their own ethical values acting in accordance with them while weakening their dual functionings. **Handbook of Humility** Everett L. Worthington Jr., Don E. Davis, Joshua N. Hook, 2016-12-08 The Handbook of Humility is the first scholarly book to bring together authors from psychology as well as other fields to address what we know and don't know about humility. Authors review the existing research in this burgeoning field that has well over 100 empirical articles and an increasing trajectory of publication. This work should form the basis for research in humility for many years. In this book, chapters address definitions of humility that guide research. Authors also reflect on the practical applications of humility research within the areas they reviewed. The book informs people who study humility scientifically but it is also an exceptional guide for psychotherapists, philosophers, religious and community leaders, politicians, educated lay people, and those who would like to fuel an informed reflection on how humility might make interactions more civil in relationships, organizations, communities, political processes, and national and international relations. **Self Discovery Journal** Tiffany Adams, 2020-01-27 Over 69 percent of people feel trapped in their same old redundant routine. Are you one of them? Do you wake up to your alarm in the mornings, get ready for work as usual, and feel like something in your life is missing? Something with significance? Are you tired of doing the things you typically do, expecting a new outcome each time, only to be disappointed when you make absolutely no personal progress or growth whatsoever? Do you want to create a new life for yourself, one filled with genuine happiness and a love for both yourself and what you do? Dissatisfaction is all too common nowadays. People are depressed, miserable, and hate their daily routine, feeling as if their life's purpose doesn't exist. For the most part, a major contributing factor is that you stay in your comfort zone and don't try to grow as an individual. Another part is that your mind is too fixated on the past. The best thing you can do for yourself in times of doubt, sadness, and unfulfillment is to focus your thoughts inward and try. In *Self Discovery Journal*, you will discover 365 thought-provoking questions to help you better understand yourself and open the door of opportunity for change in both mindset and lifestyle. How to become happy and satisfied in the life you're living, as well as how to make your dream life turn into reality. The never-ending life cycle many people get sucked into, and how to dig yourself out of this torturous rabbit hole. The key to maintaining a successful life, even if your goals constantly develop into something entirely new. The 1 stumbling block that hinders personal growth and how to push past its detrimental effects on your future.

A step by step manual designed to steer you in the right direction towards finding your life's purpose and achieving a fulfilled life. How figuring out your personality type can help you decide what kind of life would suit you best and how to do it. The well known saying 'You can't teach an old dog new tricks' simply doesn't apply here. It doesn't matter whether you're in your mid twenties or your late fifties, it's never too late for anyone to make the change they wish to see within their own self discovery. Not only can you take this journey at your own pace and in the comfort and privacy of your own home but there also aren't any seminars, programs or life coaches involved so you can rest assured knowing there will be no extra costs draining your funds. Even if you've given self discovery a try before finding yourself ending the program with the same mindset as when you began, it is something worth fighting for and trying again and again until it finally clicks. After all, it isn't about the destination but the journey itself that it took to get there. The clock is ticking. Every second you spend on something that isn't working towards finding your true self is another second wasted in misery.

**Grammatical Complexity in Academic English** Douglas Biber, Bethany Gray, 2016-05-26. Grammatical Complexity in Academic English uses corpus-based analyses to challenge a number of dominant stereotypes and assumptions within linguistics. Biber and Gray tackle the nature of grammatical complexity, demonstrating that embedded phrasal structures are as important as embedded dependent clauses. The authors also overturn ingrained assumptions about linguistic change, showing that grammatical change occurs in writing as well as speech. This work establishes that academic

writing is structurally compressed rather than elaborated that it is often not explicit in the expression of meaning and that scientific academic writing has been the locus of some of the most important grammatical changes in English over the past 200 years rather than being conservative and resistant to change Supported throughout with textual evidence this work is essential reading for discourse analysts sociolinguists and applied linguists as well as descriptive linguists and historical linguists *Individual Intellectual Integration in Russian Students* Leonid Dorfman,Alexey Kalugin,2022-08-22 This book develops an integrative view of individuality that relies on a polysystemic approach It considers and combines two systems namely individuality and intelligence with creativity in a theoretical and empirical way It focuses on cross theoretical and empirical integrations unifying the theory of integral individuality of V S Merlin with the structural dynamic theory of intelligence of D V Ushakov and the theory of divergent creative thinking of J Guilford As the book shows these theories hold together describing and revealing a new fragment of the integral individuality at the expense of intelligence and creativity
