Handbook of Anthropology in Business Rita M Denny, Patricia L

Sunderland, 2016-06-16 In recent years announcements of the birth of business anthropology have ricocheted around the globe The first major reference work on this field the Handbook of Anthropology in Business is a creative production of more than 60 international scholar practitioners working in universities and corporate settings from high tech to health care Offering broad coverage of theory and practice around the world chapters demonstrate the vibrant tensions and innovation that emerge in intersections between anthropology and business and between corporate worlds and the lives of individual scholar practitioners Breaking from standard attempts to define scholarly fields as products of fixed consensus the authors reveal an evolving mosaic of engagement and innovation offering a paradigm for understanding anthropology in business for years to come

Writing Your Dissertation with Microsoft Word Vincent Kiernan, 2005 A dissertation is the crowning achievement of years of graduate study But many graduate students struggle long hours with formatting their dissertations properly This book guides a graduate student step by step thorough the process of using Microsoft Word to produce a dissertation that meets the requirements of the student s graduate school the first time it s submitted Throughout the book uses real world examples of formatting requirements from actual graduate schools and is amply illustrated to provide a visual guide to working through Microsoft Word Tips and tricks about Word will help a graduate student devote time to the content of the dissertation not its formatting

Catalog It! Allison G. Kaplan, 2015-12-07 Whether you re a practicing cataloger looking for a short text to update you on the application of RDA to cataloging records or a school librarian who needs a quick resource to answer cataloging questions this guide is for you Since the last edition of this invaluable text was published the library world has experienced a revolution in descriptive cataloging the likes of which has not been seen since the early 1980s This updated third edition of an established and well respected guide makes it easy for you to stay in step with those monumental changes The book will help you understand the latest fundamentals of cataloging so you can get items on the library shelves quickly and efficiently Every chapter has been revised Changes in standards including RDA and BISAC that were alluded to in the second edition are discussed in depth and illustrated with explanations and sample problem sets are included so you can put theory into practice In addition the book provides you with clear headings for easy scanning as well as cheat sheets and templates for creating records for book and non book items Previous editions of this text have been used by library practitioners and library and information science professors across the country because of its spot on easy to follow guidance on cataloging for school libraries This new edition builds upon those strengths adding everything you need to know about current groundbreaking changes

True-3D in Cartography Manfred Buchroithner, 2012-01-03 As corroborated by the never sagging and even increasing interest within the last decade the intuitive attraction of True 3D in geodata presentation is well worth covering its current status and recent developments in a compendium like the present one It covers most aspects of auto stereoscopic representation techniques of both topographic and thematic geodata be they haptic or not Theory is treated as well as are many fields of concrete applications Displays for big audiences and special

single user applications are presented well established technologies like classical manual fabrication of landscape reliefs contrast with cutting edge developments
