## **Recommendation Letter Sample For Peer Mentor Guide:**

A Guide for Developing a Culture of Caring Through Nursing Peer Mentorship Programs Deborah Kramer, 2024-08-19

This book describes in detail how to develop successful programs of nursing mentorship utilizing concepts of caring that yields a strong caring body of nurses who will be nurse thrivers as they find fulfilment and meaning in their professional commitment and will train others to do the same. The mentorship program is the ticket to success that many students need to complete their degree program, prevent burnout, pass the nursing NCLEX examination and remain in the workforce after graduation. The current attrition rate in baccalaureate nursing programs is 25-50% as is the attrition rate in the first 2 years of employment of new RNs entering the workforce. Burnout is due to a lack of care and support for helping the students navigate the rigor and demands of the nursing program. Creating a community of learners with caring and support creates an environment that fosters academic engagement and success. The unique aspect of this book is its focus on creating a caring environment to support the students, helping them develop caring skills, empathy, resilience, and their own self-care, developing the skills for success beyond their educational process into the workforce. This book integrates all patterns of knowing: personal, aesthetic, empiric, and ethical, and provides the missing link of peer mentorship necessary to the development of resilient, emancipated nursing students and graduates capable of working in community with others to establish cultures of care in health care. This is a must-have resource for transformation of nursing education in the next century. Foreword by Dr. Margaret McClure.

**Undergraduate Curricular Peer Mentoring Programs** Tania Smith, 2013

Curricular peer mentoring is a programmatic approach to enrich student learning and engagement in postsecondary courses in which instructors welcome a more experienced undergraduate student into a credit course they are teaching. The student then serves as peer mentor to the students enrolled. Peer mentors can provide a variety of peer-appropriate, course-specific mentoring, tutoring, facilitation, and leadership roles and activities that complement the roles of the course's instructor and teaching assistants, both in classroom settings and beyond. A program provides training and ongoing support for a larger number of peer mentors and instructional teams and manages recruitment and program research and quality. This volume provides research findings, definitions, theories, and practical program descriptions as a foundation for program development and research of undergraduate curricular peer mentoring programs in higher education. This work builds on a long history of higher education program development and collects a significant amount of literature that has previously been scattered.
