Recovering Christian Realism Just War Theory As A Political Ethic:

Recovering Christian Realism H. David Baer, 2014-11-13 In *Recovering Christian Realism* H David Baer interprets just war theory as political ethic concerned with the moral administration of power He argues that contemporary just war theorists by debating the finer points of individual criteria have lost sight of the theory of politics that gives rise to just war thinking in the first place Baer attempts to relocate just war theory within the tradition of Christian realism in order to develop an ethic capable of addressing the uses of power He argues the just war criteria unfold from a description of the political act one which harnesses power to peace and points the way toward an ethic of armed force and international relations

Recovering Christian Realism Helmut David Baer, 2015 In *Recovering Christian Realism* H David Baer interprets just war theory as political ethic concerned with the moral administration of power He argues that contemporary just war theorists by debating the finer points of individual criteria have lost sight of the theory of politics that gives rise to just war thinking in the first place Baer attempts to relocate just war theory within the tradition of Christian realism in order to develop an ethic capable of addressing the uses of power He argues the just war criteria unfold from a description of the political act one which harnesses power to peace and points the way toward an ethic of armed force and international relations

Blessed Are the Peacemakers Lisa Sowle Cahill, 2019-03-02 This book is a contribution to the Christian ethics of war and peace It advances peacebuilding as a needed challenge to and expansion of the traditional framework of just war theory and pacifism It builds on a critical reading of historical landmarks from the Bible through Augustine Aquinas the Reformers Christian peace movements and key modern figures like Dietrich Bonhoeffer Reinhold Niebuhr and recent popes Similar to just war theory peacebuilding is committed to social change and social justice but includes some theorists and practitioners who accept the use of force in extreme cases of self defense or humanitarian intervention Unlike just war theorists they do not see the justification of war as part of the Christian mission Unlike traditional pacifists they do see social change as necessary and possible and as such requiring Christian participation in public efforts Cahill argues that transformative Christian social participation is demanded by the gospel and the example of Jesus and can produce the avoidance resolution or reduction of conflicts And yet obstacles are significant and expectations must be realistic Decisions to use armed force against injustice even when they meet the criteria of just war will be ambiguous and tragic from a Christian perspective Regarding war and peace the focus of Christian theology ethics and practice should not be on justifying war but on practical and hopeful interreligious peacebuilding

[Serve and Protect](#) Tobias Winright, 2020-11-13 This collection of essays on policing and the use of force while written over the course of the last twenty five years remains relevant and timely Although issues in policing and questions about excessive force and brutality have been addressed by criminologists sociologists philosophers and criminal justice ethicists only a handful of theological ethicists treat this pressing matter While the Christian moral tradition has a voluminous record of theological attention to violence and nonviolence war

and peace there is a dearth of references to policing And most considerations of criminal justice issues by Christians and their churches concentrate on prison reform or abolition and the death penalty but not policing These essays authored by a theological ethicist possessing professional experience in law enforcement seek to fill this curious gap They offer a framework for moral reasoning concerning the justification for police use of force and the just application of such force and they propose just policing as a model that is consonant with promoting a just peace in communities and society In addition they explore the implications of such an approach for wider international questions about just war terrorism the responsibility to protect and post war justice *Power Politics and Moral Order* Eric D. Patterson, Robert J.

Joustra, 2022-03-28 Christian realism is undergoing a renaissance in both American Christianity and around the world Caught between globalist liberalism on the one hand and pragmatic realism on the other Christians are in search of international ethics a standard and tradition in foreign policy that takes the two great books of life the Christian Scriptures and the world we live in seriously This book is an extended edited collection that mines the tradition of Christian realism in international relations and finds in it voices and mentors urgently fresh for a new age With classic authors like Reinhold Niebuhr Herbert Butterfield Paul Ramsey and Jean Bethke Elshtain and contemporaries like Marc LiVecche Rebecca Heinrichs and others this collection offers for the first time an organization periodization and collection of primary Christian realist sources for the initiate and the expert in foreign relations **Augustinian and Ecclesial Christian Ethics** D. Stephen Long, 2018-08-15

What is the relationship between the command to love one's enemies and the use of violence and or other coercive political means This work examines this question by comparing and contrasting two important contemporary approaches to Christian ethics neoAugustinian and the ecclesial or neoAnabaptist It traces the complicated conversation that has taken place since John Howard Yoder took on Reinhold Niebuhr's interpretation of the Anabaptists in the 1940s It consists of three parts The first part traces the development of the Augustinian Niebuhrian approach to ethics from Niebuhr through those who have advanced his work including Paul Ramsey Timothy Jackson Charles Mathewes Eric Gregory and Jennifer Herdt It also examines the Augustinian ethics of Oliver O'Donovan John Milbank and Nicholas Wolterstorff Along with tracing the Augustinian approach and its trajectories through agapism theology and the interpretation of Augustine it identifies fifteen criticisms that this approach brings against the neoAnabaptists The second part traces the origin of the ecclesial or neoAnabaptist approach and then examines its relationship to and criticism of agapism what theological doctrines are central and its interpretation of Augustine Its purpose is primarily constructive by explaining the role that ecclesiology Christology and eschatology have among the neoAnabaptists The third part addresses the criticisms levied by Augustinians against the neoAnabaptists by drawing on the constructive theology in the second part It intends to show where the Augustinian critics are correct where they have missed key theological teachings and where they misrepresent It also assesses the summons to the nationalist project the Augustinians put to the neoAnabaptists If this work is successful this third part will not be

defensive It will instead illumine the reasons for the criticisms and suggest means by which the conversation that began between Yoder and Niebuhr can continue and possibly bear fruit for theological ethics in both its ecclesial and nationalist projects for generations to come

May I Kill? Jeffrey K. Mann, 2018-09-28 Today we live in a world where we are less exposed to violence than at any other time in history However we also know that violence can come knocking on our door at any moment Preparing for this possibility means more than physical safety it means being clear with ourselves about the ethics of violence Can violence be justified When should we fight How should we fight And in situations when things have gone badly may we kill These questions are not only for politicians soldiers and police officers but are also important considerations for civilians whose lives do not normally intersect with violence Whether advocating for government policies marching in the streets or defending ourselves and loved ones a coherent moral framework is essential to good decision making *May I Kill* examines the efficacy of different approaches to non violence and Just War Theory By scrutinizing these ethical theories the reader is encouraged to critically examine occasions for the use of force from a moral perspective whether nations at war or violent encounters in our own neighborhoods We may then determine how best to develop ourselves body mind and spirit to respond effectively and make the world a safer place

Lutheran Theology and Secular Law Marie A. Failing, Ronald W. Duty, 2018-04-17 This collection brings together lawyers and theologians in the U S and Europe to reflect on Lutheran understandings of the political use of the law by secular governments The book furthers the intellectual conversation about how Lutheran insights can be used to develop jurisprudence and specific solutions to legal issues in which there is strong conflict It presents the basic theological and interpretive assumptions of the Lutheran tradition as they may inform the creation of legislation and judicial interpretation at local national and international levels The authors explore Luther's conception of the foundations of modern secular law and understanding of vocation The work discusses the application of Lutheran theological principles to contemporary issues such as the war on terror native land rights property law family law church and state medical experimentation and the criminal law of rape providing ethical insights for lawyers and lawmakers

Religion and the Realist Tradition Jodok Troy, 2013-09-11 This volume picks up a rather uninvested field of international relations theory the influence of religion on Realism as well as the power of Realism to address religious issues in world politics Although classical scholars of Realism rarely mention religion explicitly in their well known work this volume suggests that Realism offers serious ground for taking religion and faith into account as well as evaluating the impact of religion on its theoretical framework how religion and religious worldviews influence and affect the theoretical framework of Realism and how Realism approach religious issues in international relations as a relatively new field of international studies Although international relations scholars now widely deal with issues of religion large portions of the theoretical underpinning are missing In addressing this lack the volume illustrates the possibility of reform and change in Realism Furthermore the chapters reach out to normative statements The contributors offer a theoretical view on religion

in international relations in the context of Realism but always connect this with actual real world related political problems The volume takes into account not only classical thinkers and approaches of Realism but also present day authors dealing with ethical and normative questions of international relations in the aftermath of 9 11 Offering a fresh perspective on the influence of religion on international relations theory this work will be of great interest to scholars of religion and international relations international relations theory and political philosophy **War and the American Difference**
