Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country's apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country's people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations **Hitmen for Hire** Mark Shaw, 2017-07-10

Police Work and Identity Andrew Faull,2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street **South African Republic** Great Britain. Katherine S. Newman,Ariane De Lannoy,2015-03-24 Twenty years after the end of apartheid a new generation is building a
multiracial democracy in South Africa but remains mired in economic inequality and political conflict The death of Nelson
Mandela in 2013 arrived just short of the twentieth anniversary of South Africa s first free election reminding the world of
the promise he represented as the nation s first Black president Despite significant progress since the early days of this new
democracy frustration is growing as inequalities that once divided the races now grow within them as well In After Freedom
award winning sociologist Katherine S Newman and South African expert Ariane De Lannoy bring alive the voices of the
freedom generation who came of age after the end of apartheid Through the stories of seven ordinary individuals who will
inherit the richest and yet most unequal country in Africa Newman and De Lannoy explore how young South Africans
whether Black White mixed race or immigrant confront the lingering consequences of racial oppression These intimate
portraits illuminate the erosion of old loyalties the eruption of class divides and the heated debate over policies designed to
redress the evils of apartheid Even so the freedom generation remains committed to a united South Africa and is struggling
to find its way toward that vision **Trailblazer** Cheryl Tyler,2024-09-16 Trailblazer is the remarkable and inspiring story of
Cheryl Tyler a Black woman who defied all odds and shattered barriers in her quest to protect the highest office in the land
This captivating memoir transports readers into Tyler s world as she embarks on an extraordinary journey to become the first

resilience and unwavering commitment to her duty shine through as she serves as a top agent safeguarding not only

accomplishments earned her well deserved accolades but this book uncovers the untold story of the challenges she faced as a
woman of color in a predominantly male all white profession With emotional depth and gripping detail Tyler s memoir delves
into the heart wrenching struggles she endured during an eighteen year class action lawsuit against the USSS Alongside
other Black agents she fought relentlessly to eradicate racial slurs workplace discrimination and unfair employment practices
within the Agency As plaintiffs they emerged victorious securing a historic 24 million compensation for themselves and other
