

# HOW TO PERFORM HANDS-ONLY CPR

*If you see someone collapse or find someone lying on the ground:*

- 1** Call **9-1-1** or send someone to do so.

## **Hands-Only CPR** **Hands-Only Cardiopulmonary Resuscitation**

- The victim must be on a firm and flat surface and facing upwards

## **2 CHEST COMPRESSIONS**

- Draw a line, with your hand, from the armpit to the center of the chest

- Place the heel of one hand on the lower half of the sternum or breast bone and place other hand over the first. Interlace fingers.
- Straighten your arms and position your shoulders over the victim's chest.

- Push down hard and fast, 2 inches (or 5 centimeters) deep at the rate of at least 100 compressions per minute.

- Lift your hands slightly off the chest between each compression to allow for full chest re-coil.

## **CONTINUE CHEST COMPRESSIONS UNTIL:**

- The victim begins breathing.
- Another trained responder arrives and is ready to take over.

- You are physically unable to continue.
