Salafism In Lebanon From Apoliticism To Transnational Jihadism:

Salafism in Lebanon Robert Rabil, 2014-10-24 Salafism comprised of fundamentalist Islamic movements whose adherents consider themselves the only saved sect of Islam has been little studied remains shrouded in misconceptions and has provoked new interest as Salafists have recently staked a claim to power in some Arab states while spearheading battles against infidel Arab regimes during recent rebellions in the Arab world Robert G Rabil examines the emergence and development of Salafism into a prominent religious movement in Lebanon including the ideological and sociopolitical foundation that led to the three different schools of Salafism in Lebanon quietist Salafists Haraki active Salafists and Salafi Jihadists Emphasizing their manhaj methodology toward politics the author surveys Salafists ideological transformation from opponents to supporters of political engagement Their antagonism to Hezbollah which they denounce as the party of Satan has risen exponentially following the party's seizure of Beirut in 2008 and support of the tyrannical Syrian regime Salafism in Lebanon also demonstrates how activists and jihadi Salafists in response to the political weakness of Sunni leadership have threatened regional and international security by endorsing violence and jihad Drawing on field research trips personal interviews and Arabic primary sources the book explores the relationship between the ideologies of the various schools of Salafism and their praxis in relation to Lebanese politics The book should interest students and scholars of Islamic movements international affairs politics and religion and radical groups and terrorism *Salafism in Lebanon* Zoltan Pall, 2018-04-05 Examines the entrenchment of Salafism in Lebanese society while also highlighting the movement's transnational links to the Persian Gulf *Salafism in Jordan* Joas Wagemakers, 2016-09-15 Salafism in Jordan debunks stereotypes and presents the diversity of Salafism on a range of political and ideological issues *Jihad in the City* Raphaël Lefèvre, 2021-05-06 Tawhid was a militant Islamist group which implemented Islamic law at gunpoint in the Lebanese city of Tripoli during the 1980s In retrospect some have called it the first ISIS style Emirate Drawing on two hundred interviews with Islamist fighters and their mortal enemies as well as on a trove of new archival material Raphaël Lefèvre provides a comprehensive account of this Islamist group He shows how they featured religious ideologues determined to turn Lebanon into an Islamic Republic yet also included Tripolitan rebels of all stripes neighbourhood strongmen with scores to settle local subalterns seeking social revenge as well as profit driven gangsters who each tried to steer Tawhid's exercise of violence to their advantage Providing a detailed understanding of the multi faceted processes through which Tawhid emerged in 1982 implemented its Emirate and suddenly collapsed in 1985 this is a story that shows how militant Islamist groups are impacted by their grand ideology as much as by local contexts with crucial lessons for understanding social movements rebel groups and terrorist organizations elsewhere too **The Syrian Refugee Crisis in Lebanon** Robert G. Rabil, 2016-07-29 This book examines the unfolding of the Syrian refugee crisis in relation to the spillover of the Syrian civil war in Lebanon and against the background of Lebanon Syria relations and Lebanon's socio political cultural legal and economic conditions It surveys

Lebanon's response plans to the refugee crisis as part of the development of the international response plans to address the protection and needs of the Syrian refugees and Palestinian refugees from Syria as well as the impacted host communities and institutions. At the same time, this book emphasizes the dramatic shift in popular and institutional attitudes towards the refugees as a response to and as a growth of the sheer magnitude of the refugee crisis which made Lebanon the only country in modern history with the highest per capita concentration of refugees in the world. By examining these attitudes against the background of achievements and failures of the response plans, the impact of the crisis on state institutions on the local and national levels and the collective consciousness of a nation barely surviving the scars of its civil war, this book not only underscores the deepening tragedy of Syrian and Palestinian refugees in Lebanon but also the consequential tragedy of many Lebanese who have been forced into poverty and whose livelihoods have been affected by insecurity and the almost complete collapse of social services. As a result, the tragedy of the Syrian refugee crisis has become an international crisis affecting vulnerable persons across nationalities and unless it is addressed diplomatically and its response plans sufficiently funded, the tragedy will only deepen across continents.

Scripture People Matthew D. Taylor, 2023-08-10. On 9/11 many Americans were introduced to an Islamic movement called Salafism, the theological strand that includes Al Qaeda. Since then, Salafism, an important and popular movement in global Islam, has frequently been disparaged as Radical Islam or Islamic fundamentalism. *Scripture People* is the first book-length study of the embattled American Salafi movement and the challenges it has faced post 9/11. Matthew D. Taylor recounts how these so-called Radical Muslims have adopted deeply rooted American forms of religious belonging and values. Through comparison with American Evangelical Christianity, informed by his own Evangelical background and studies, Taylor explores the parallel impulses, convergent identities, and even surprising friendships that have emerged between Salafis and Evangelicals in America. Offering an entry point for understanding the dynamics and disagreements among American Muslims, Taylor's volume upends narratives about Radical Islam by demonstrating how Salafi Muslims have flexibly adapted to American religious patterns in the twenty-first century.

The Routledge Handbook of Religion, Politics and Ideology Jeffrey Haynes, 2021-08-14. This comprehensive handbook examines relationships between religion, politics, and ideology with a focus on several world religions: Christianity, Islam, Buddhism, Hinduism, and Judaism in a variety of contexts, regions, and countries. Relationships between religion, politics, and ideology help mould people's attitudes about the way that political systems, both domestically and internationally, are organised and operate. While conceptually separate, religion, politics, and ideology often become intertwined, and as a result, their relationships evolve over time. This volume brings together a number of expert contributors who explore a wide range of topical and controversial issues, including gender, nationalism, communism, fascism, populism, and Islamism. Such topics inform the overall aim of the handbook to provide a comprehensive summary of the relationships between religion, politics, and ideology, including basic issues and new approaches. This handbook is a major research resource for students, researchers, and

professionals from various disciplinary backgrounds including religious studies political science international relations and sociology

elements that had a direct impact on power sharing this led at times to instability and at other times it brought down the system as in 1840 1860 and 1975 Power Sharing in Lebanon is the first academic work that emphasizes the influence of the non structural elements that hinder power sharing This volume is now a key resource for students and academics interested in Lebanese Politics and the Middle East The Caliphate at War Ahmed Hashim, 2018 The military victories of ISIS have overturned the geopolitical map of the Middle East Media attention has focused on ISIS savage treatment of its enemies and its ability to attract foreign fighters However in order to explain its success a dispassionate account of its innovations in insurgency ideology and governance is needed The first effort to build an Islamic state in Iraq was defeated by US and Iraqi forces in 2011 That the second attempt dating from 2014 has been more successful calls for explanation Hashim argues that by focusing their ideology first and foremost on extreme anti Shia sectarianism rather than on Western infidels ISIS founders were able to present themselves as the saviours of what they saw as the embattled Sunni nation in Iraq This enabled them to win the support of Sunni communities Moreover ISIS stunning ability to take major cities is a result of its innovative tactics It sows terror in advance of its attacks by using targeted assassinations to kill key city leaders and its decentralised regional command structure facilitates an unusual degree of coordination between small assault units Meanwhile it is making a serious effort to engage in state building and population control
