**THE TRUTH OF THE ORIGIN OF THE UNIVERSE** Dr. Sabrie Soloman, 2024-08-01 The topic of undeserving credit given to the Big Bang and UFOs is a controversial one with many people having strong opinions on the matter While both the Big Bang theory and the existence of UFOs have been widely accepted the author argues that they are given too much credit and recognition without sufficient evidence to support their claims The Big Bang theory is widely accepted as the most plausible explanation for the origin of the universe Some critics argue that it is not the only possible explanation for the universe's origins Some alternative theories such as the steady state theory or the oscillating universe theory have been

proposed as alternatives to the Big Bang theory Similarly the existence of UFOs is a topic that has been hotly debated for decades While there have been countless reports of UFO sightings and encounters there is a lack of concrete evidence to support the existence of extraterrestrial visitors While the Big Bang theory and UFOs may be popular topics in popular culture it is important to approach them with a critical eye and to consider the evidence before giving them undeserving credit

***THE TRUTH OF THE ORIGIN OF THE UNIVERSE*** Sabrie Soloman,2024-06-12 In a world filled with scientific explanations and theories it can be easy to lose sight of the ultimate truth of our existence The truth is that the universe with all its intricate complexities did not come into being by mere chance or a random explosion It was carefully designed and orchestrated by a higher power a Creator who holds everything together When we look up at the night sky and see the countless stars and galaxies stretching out into infinity we cannot help but be in awe of the sheer magnitude and beauty of it all The heavens declare the glory of God as it says in the Bible and remind us of the greatness of the one who made it all The theory of the Big Bang which posits that the universe began as a singular point and expanded over billions of years is a flawed explanation for the origin of the universe It fails to account for the intricate design and order that we see in the cosmos as well as the existence of life on earth The marvel of our planet Earth with its perfect conditions for sustaining life points to a Creator who had a purpose and a plan in mind when he made it The countless galaxies and stars that we observe in the universe are a testament to the power and creativity of God They show us that we are part of a vast and wondrous creation one that was made by an intelligent designer who had a vision for it all The theory of evolution put forth by Charles Darwin is another flawed explanation for the diversity of life on earth It fails to explain the intricate complexities of living organisms and their unique design as well as the existence of the human soul It is clear that we are not the product of blind chance or random mutations but rather the handiwork of a loving and powerful Creator The truth of the origin of the universe points to a Creator who holds everything together and has a purpose and a plan for it all God stretches out the heavens and allows light to reach us here on earth showing us his care and provision for his creation We are not the product of random chance or blind evolution but rather the cherished creation of a loving God who made us in his image Let us never forget the marvel and wonder of the universe and the greatness of the one who made it all
