3.0 OBJECTIVES

Management of food and beverage (F&B) is a necessity as well as an art when it comes to events. In this Unit we will be focusing on planning and preparation of a food corner, the serving of F&Bs, and other aspects of catering management for events. It is to be noted that F&Bs are an integral aspect of an event and many a times may be the primary focus. Likewise the arrangement of food layout at the event venue has to be given serious consideration by the event planner. This Unit will focus on all aspects of catering management in events. After studying this Unit, you will be able to:

- Understand catering management for food and beverage service in events;
- Learn about the different types of catering operations;
- Understand the importance of types of event catering;
- Discuss the importance and functions of menu designing;
- Identify the different types of food service in catering management; and
- Know the importance of hygiene, sanitation and safety in catering management.

3.1 INTRODUCTION

The professional event manager must understand the function of Food and Beverage (F&B) within the purpose of the event, and must also meet the expectations of the event in terms of F&B service. For this purpose, catering management has to go along with the theme and type of the event. If not properly planned, the goals of an event may not be fulfilled. Whether the event is a small birthday party, a large fundraiser gala to attract donors and sponsors to the charity organization, a big fat Indian wedding or even a seven course banquet honoring a visiting head of the state, the right food as well as beverage choice and service can facilitate the achievement of an event's goals and objectives.
