Psychotherapy in Corrections

Peter N. Novalis, M.D., Ph.D., Virginia Singer, DNP, Carol M. Novalis, M.A., 2022-09-13 To practice psychotherapy in a correctional setting is to encounter a range of cultural issues reflecting the various ethnic, class, gender, and physical subgroups of the prison population, as well as to navigate the culture of the prison staff and justice system that underpins the patients' circumstances. Drawing on the authors' extensive professional experience, *Psychotherapy in Corrections* offers mental health professionals a comprehensive look at the most common situations they are likely to face and provides practical advice on dealing with them. Diagnostically oriented chapters cover core issues that include self-harm and substance use disorders, as well as mood and personality disorders. Specific supportive therapy techniques for addressing these issues, as well as special situations including the experience of women in prison, behaviors that can disrupt care, and efforts to reduce recidivism, are illustrated by clinical vignettes. In tackling the social and developmental conditions that lead individuals to interact with the correctional system, *Psychotherapy in Corrections* also acknowledges the effects of the COVID-19 pandemic and the movement for social justice in society. Anyone who conducts psychotherapy in a prison setting will benefit from an approach centered on treating the human in front of them, regardless of the setting or their crime.
