HM Revenue & Customs Great Britain. National Audit Office,2009 In 2007 08 HMRC received more than a quarter of the 4 million Tax Credit renewals forms in July the renewal deadline and it processed half of the 8 2 million Income Tax Self Assessment returns during January to March At busier times customers experience delays on their correspondence and receive a less responsive service In the lead up to the Income Tax Self Assessment deadline in January 2008 HMRC answered just two thirds of the 7 million telephone calls made to its contact centres By encouraging more customers to file tax returns online and removing the need for some returns HMRC has smoothed peaks in workload and released resources of 7 million a year The peak in Tax Credit renewal work has however increased as the deadline has been brought forward to reduce overpayments Using different processing targets throughout the year and giving customers more information about how long their information will take to process during peak periods could help spread work out throughout the year During busy periods HMRC tends to process simpler Income Tax cases postponing more complex checks and less urgent work During peak periods staff productivity is higher partly reflecting the simpler cases but HMRC also experiences increased staff sickness absence The experience of HMRC and other organisations is that between 15 per cent and 40 per cent of contact with customers is avoidable Reducing the number of avoidable calls by 15 per cent could release resources of up to 23 million a year or 11 per cent of its annual spending on contact centres Helping newly registered businesses meet their tax obligations Great Britain: National Audit Office,2006-12-06 There are around 700 000 new businesses starting up each year all of which are required to register with HM Revenue the process of registering for a tax the guidance and advice provided by the Department The report also highlights a number of conclusions and recommendations including the Department should target those newly registered businesses which are likely to benefit most such as those entirely new to business and have least understanding of their tax obligations new businesses should be encouraged to use the email alert service provided by Business Link the Department should make guidance forms easier to understand and complete and also work more closely with other organisations such as tax agents Business Link and financial institutions to coordinate help for new businesses in general the introduction of a single online tax registration for businesses would be beneficial and the Department should work towards a one stop telephone information system to cover all taxes
