A Year of PR Dr. George Ash, 2016-03-29 *A Year of PR* A Collection from an Educational Service Center is unlike any other public relations book for schools. It offers a year's worth of press releases involving real schools, their students, faculty, and administrators, and covers a plethora of topics from general operations and building upgrades to fund raising and human interest features, all of which aim to inspire principals and superintendents to write and share their own positive public relations. With so much media coverage these days focusing on school violence, troubled youth, and funding issues, the general public may not be aware of all the good things happening within their local schools' walls. Students are working hard to surpass academic goals, perform athletic feats, embrace new technology, and help others, making the world a better place. Take a page from *A Year of PR* and highlight your own school district with a smart press release plan. Let the community know what your students are up to. Shine a light on teachers who go the extra mile, community leaders who get involved with the schools, and interesting people who have a positive impact on the district. By keeping people informed, you improve relations between schools and communities and keep residents invested in their district. Moreover, a good public relations strategy presents an opportunity to show stakeholders the positive impact that faculty, staff, administrators, board members, and most importantly, students make in our communities.

United We Serve E. J. Dionne, Kayla Meltzer Drogosz, Robert E. Litan, 2004-05-26 Public rhetoric in the United States has always laid heavy stress on the obligations of citizenship. Bill Clinton praised the idea of service, and so does George W. Bush. Since September 11, the debate over service and the obligations of citizenship has become even more urgent. *United We Serve* gathers many diverse voices on civic life and civic obligation to explore the idea of national service as it relates to citizenship. Activists and practitioners discuss the rise of the service movement, its practical successes, and its challenges. Policymakers and political leaders explore the links between service and problem solving. Political scientists and philosophers connect the service debate to larger concerns about democratic participation. The book also includes a lively debate over whether the U.S. should reconsider compulsory national service. The discussion about service is a debate over how Americans think of themselves and their nation and about what the new patriotism means. Contributors include Daniel Blumenthal, Harry Boyte, John M. Drug Abuse: Prevention and Treatment Mangai Natarajan,2017-05-15 Ever since the Shanghai convention in 1909 the threat posed to human well being by drug abuse has led countries around the world to take action to deal with their drug problems There are wide variations in the policies pursued but most countries try to reduce both the supply of and the demand for drugs Unfortunately there is little research consensus on the respective merits of these two approaches or about the best ways to pursue them Consequently control and prevention policies are mostly driven by political considerations economic realities and cultural expectations though research has played an important part in formulating and evaluating treatments for drug addiction This volume reviews studies on drug abuse prevention and treatment strategies under five main areas 1 Reducing supply strategies to control the flow of drugs from production to retail distribution 2 Reducing demand prevention of drug use at all stages of involvement and consumption levels 3 Reducing harm promoting situational risk reduction practices for regular users addicts and recreational users 4 Reducing addiction drug treatment options for various groups in various settings and 5 Drug policies and prescriptions focused on debates about prohibition and legalization Federal, State, and Local Response to the Drug Crisis United States.
