

DNP Program Essay Example Essay

Introduction

The Touro University Nevada (TUN) Doctor of Nursing Practice (DNP) program incorporates a baccalaureate structure where candidates are primed for roles in leadership or administrative positions in regards to organizations, systems, and populations. Nonetheless, graduates are not involved in direct patient care throughout their DNP education. Instead, the students utilize their knowledge and skills for purposes of aiding ascertaining the system and organizational level challenges including the development of evidence-based interventions to counter such problems. The execution of these responsibilities mandates the attainment of competency in organizational evaluation methodologies while also integrating the proficient level of knowledge that is pertinent to biological, nursing and behavioral sciences. The American Association of Colleges of Nursing (AACN) stipulates the essentials for a DNP program including the requirements for completing the project that encompasses scholarly work within the program. Pundits argue that the DNP project is customized to achieve the same milestones that a dissertation delivers for Ph.D. graduates. Consequently, this paper focusses on highlighting the essentials, program outcomes and summary of practice activities as captured in a typical DNP program.

DNP Essentials

The fundamental prerequisite for a DNP program includes the incorporation of nursing science with background knowledge on the psychosocial, diagnostic, biophysical and administrative sciences as being the requirements for the optimized level of nursing practice. Additionally, philosophies bearing scientific connotations and conceptualizations are utilized in the quest to define the landscape and importance of health including the tenets surrounding the delivery of services in the related sectors. The description of activities progressive stratagems is also integrated for purposes of alleviating, ameliorating and enhancing health care and its delivery including the scrutiny of the outcomes (Kaplan & Brown, 2009). This may be done in conjunction with the development and appraisal of novel methodologies that may have been drawn from nursing theories or other disciplines that are inter-related.

Description of DNP Essential IV

Scientific underpinnings are the driving force in so far as the quality enhancement, systems leadership and systems thinking are concerned. Such findings are drawn from a diverse range of platforms including, clinical sciences, nursing, political, organizational and economic sciences. Moreover, a DNP program ensures that the graduate is conversant with the accountability measures that guarantee quality health care and the safety of patients within the populations in which they are to work. Such processes may be achieved through the use of advanced communication proficiencies which ultimately guarantee that patient health care and quality of service is heightened as an embodiment of initiatives in health care systems (Fain, Asselin & McCurry, 2008). Further, the principles of finance, business, health policy and economics are applied in a bid to implement practice-level and system-wide initiatives that will provide efficacy and improvement in the quality of
