

Table 4 Model Answers: The New Deal

a) Write an account of the measures taken by Roosevelt to help the unemployed (15)

One way in which FDR sought to provide immediate relief to unemployed Americans was introducing the Federal Emergency Relief Act (FERA). FERA provided \$500 million in federal grants to state and local governments to fund relief programs for the unemployed. It aimed to address immediate needs, distributing money directly to families and funding public works projects. By 1935, it had provided relief for over 20 million people, showcasing its critical role in reducing widespread suffering as a result of unemployment during the Great Depression.

Next FDR introduced the CCC, an agency which provided jobs to young, unemployed people (16-25) to work on environmental conservation projects, such as reforestation, erosion prevention, and national park improvements. Participants earned \$30 per month, which was sent home to their families. Over its lifetime, the CCC employed 3 million men and planted 3 billion trees, while improving over 800 state parks.

The TVA was designed to regenerate the Tennessee Valley region, which was plagued by unemployment. It created jobs by building dams for flood control, improving irrigation and agricultural conditions, and providing electricity to millions of people, thus creating a more stable and prosperous region.

b) Discuss the impact of the First New Deal (25)

The First New Deal, introduced between 1933 and 1934 had a profound impact on the USA during the Great Depression. Although it did not end the Depression, it succeeded in providing immediate relief to millions of Americans, thus laying the foundations for long term economic recovery. In doing so, the New Deal evidenced to the people of America how vital state intervention was in times of socio-economic turmoil and fundamentally changed both the expectation and role of the Federal Government.

One of the most immediate and visible impacts of the First New Deal was the relief it provided to the unemployed and impoverished. Key agencies like the Federal Emergency Relief Administration (FERA) distributed over \$3 billion to states to fund relief programs, which provided food, clothing, and housing for millions. The Civil Works Administration (CWA) provided short-term jobs to over 4 million people during the winter of 1933-34, providing a crucial lifeline for many.

American Guides Wendy Griswold, 2016-08-26 In the midst of the Great Depression Americans were nearly universally literate and they were hungry for the written word With an eye to this market and as a response to unemployment Roosevelt s Works Progress Administration created the Federal Writers Project They produced the Project s American Guides an impressively produced series that set out not only to direct travelers on which routes to take and what to see throughout the country but also to celebrate the distinctive characteristics of each individual state The series unintentionally diversified American literary culture s cast of characters promoting women minority and rural writers while it also institutionalized the innovative idea that American culture comes in state shaped boxes

Republic of Detours Scott Borchert, 2025-09-23 A New York Times Book Review Editors Choice Winner of the New Deal Book Award An immersive account of the New Deal project that created state by state guidebooks to America in the midst of the Great Depression and employed some of the biggest names in American letters The plan was as idealistic as it was audacious and utterly unprecedented Take thousands

of hard up writers and put them to work charting a country on the brink of social and economic collapse with the aim of producing a series of guidebooks to the then forty eight states along with hundreds of other publications dedicated to cities regions and towns while also gathering reams of folklore narratives of formerly enslaved people and even recipes all of varying quality each revealing distinct sensibilities All this was the singular purview of the Federal Writers Project a division of the Works Progress Administration founded in 1935 to employ jobless writers from once bestselling novelists and acclaimed poets to the more dubiously qualified The FWP took up the lofty goal of rediscovering America in words and soon found itself embroiled in the day s most heated arguments regarding radical politics racial inclusion and the purpose of writing forcing it to reckon with the promises and failures of both the New Deal and the American experiment itself Scott Borchert s Republic of Detours tells the story of this raucous and remarkable undertaking by delving into the experiences of key figures and tracing the FWP from its optimistic early days to its dismemberment by the House Committee on Un American Activities We observe notable writers at their day jobs including Nelson Algren broke and smarting from the failure of his first novel Zora Neale Hurston the most widely published Black woman in the country and Richard Wright who arrived in the FWP s chaotic New York City office on an upward career trajectory courtesy of the WPA Meanwhile Ralph Ellison Studs Terkel John Cheever and other future literary stars found encouragement and security on the FWP payroll By way of these and other stories Borchert illuminates an essentially noble enterprise that sought to create a broad and inclusive self portrait of America at a time when the nation s very identity and future were thrown into question As the United States enters a new era of economic distress political strife and culture industry turmoil this book s lessons are urgent and strong

Unearthing Indian Land Kristin T. Ruppel, 2008-12-15 *Unearthing Indian Land* offers a comprehensive examination of the consequences of more than a century of questionable public policies In this book Kristin Ruppel considers the complicated issues surrounding American Indian land ownership in the United States Under the General Allotment Act of 1887 also known as the Dawes Act individual Indians were issued title to land allotments while so called surplus Indian lands were opened to non Indian settlement During the forty seven years that the act remained in effect American Indians lost an estimated 90 million acres of land about two thirds of the land they had held in 1887 Worse the loss of control over the land left to them has remained an ongoing and insidious result *Unearthing Indian Land* traces the complex legacies of allotment including numerous instructive examples of a policy gone wrong Aside from the initial catastrophic land loss the fractionated land ownership that resulted from the act s provisions has disrupted native families and their descendants for more than a century With each new generation the owners of tribal lands grow in number and therefore own ever smaller interests in parcels of land It is not uncommon now to find

reservation allotments co owned by hundreds of individuals Coupled with the federal government s troubled trusteeship of Indian assets this means that Indian landowners have very little control over their own lands Illuminated by interviews with Native American landholders this book is essential reading for anyone who is interested in what happened as a result of the federal government s quasi privatization of native lands Communicating the Future W. Lance Bennett,2020-12-03 We are facing an unprecedented environmental crisis How can we communicate and act more effectively to make the political and economic changes required to survive and even thrive within the life support capacities of our planet This is the question at the heart of W Lance Bennett s much anticipated book Bennett challenges readers to consider how best to approach the environmental crisis by changing how we think about the relationships between environment economy and democracy He introduces a framework that citizens practitioners and scholars can use to evaluate common but unproductive communication that blocks thinking about change develop more effective ways to define and approach problems and design communication processes to engage diverse publics and organizations in developing understandings goals and political strategies Until advocates develop economic programs with built in environmental solutions they will continue to lose policy fights Putting intersectional communication into action requires acknowledging that communication is not only an exchange of messages but an organizational process Communicating the Future is important reading for students and scholars of media and communication as well as general readers concerned about the environmental crisis *A World of Wounds* Nancy J. Manring,2025-11-04 At the end of the Reagan administration American public opinion polls showed there were no discernible differences based on political party in response to the question Do you consider yourself an environmentalist However in the early 1990s a partisan gulf between conservatives and liberals emerged around environmental issues Today half as many Republicans self identify as environmentalists when compared to Democrats Political stagnation on climate action in turn has led to a growing number of Americans of all ages who experience ecological grief known as solastalgia and eco anxiety a chronic fear of environmental doom These emotions emerged in response to the existential distress associated with living in a world of relentless environmental damage and irreversible ecological losses a world of wounds This book offers an antidote to political frustration and hopelessness Nancy J Manring provides an indispensable analysis of the multi decade conservative war against American environmentalism and maps out realistic strategies for rebuilding a bipartisan environmental movement Nurturing authentic hope in contrast to blind optimism or false promises begins with an unflinching look at both planetary and political realities Choosing authentic hope is an ongoing process that requires emotional honesty courage and action This forceful book serves as both a tool for change and a spirited scholarly intervention *Unfinished Show Business* , In this fresh approach to musical theatre history Bruce Kirle challenges the commonly understood trajectory of the genre Drawing on the notion that the world of the author stays fixed while the world of the audience is ever changing Kirle suggests that musicals are open fluid products of the particular cultural moment in which

they are performed Incomplete as printed texts and scores musicals take on unpredictable lives of their own in the complex transformation from page to stage Using lenses borrowed from performance studies cultural studies queer studies and ethnoracial studies Unfinished Show Business Broadway Musicals as Works in Process argues that musicals are as interesting for the provocative issues they raise about shifting attitudes toward American identity as for their show stopping song and dance numbers and conveniently happy endings Kirle illustrates how performers such as Ed Wynn Fanny Brice and the Marx Brothers used their charismatic personalities and quirkiness to provide insights into the struggle of marginalized ethnoracial groups to assimilate Using examples from favorites including Oklahoma Fiddler on the Roof A Chorus Line and Les Mis rables Kirle demonstrates Broadway s ability to bridge seemingly insoluble tensions in society from economic and political anxiety surrounding World War II to generational conflict and youth counterculture to corporate America and the me generation Enlivened by a gallery of some of Broadway s most memorable moments and some amusing obscure ones as well this study will appeal to students scholars and lifelong musical theatre enthusiasts

Lloyd,2020 Information Technology Law examines the national and international basis for action on such topics as data protection and computer crime The text goes on to analyse the effectiveness of current intellectual property legislation **Public Citizens** Paul Sabin,2021-08-10 Crisp clear eloquent Kim Phillips Fein New Republic An elegantly argued and meticulously documented Timothy Noah New York Times Book Review account of the postwar struggle over the proper role of citizens and government in American society In the 1960s and 1970s an insurgent attack on traditional liberalism took shape in America It was built on new ideals of citizen advocacy and the public interest Environmentalists social critics and consumer advocates like Rachel Carson Jane Jacobs and Ralph Nader crusaded against what they saw as a misguided and often corrupt government Drawing energy from civil rights protests and opposition to the Vietnam War the new citizens movement drew legions of followers and scored major victories Citizen advocates disrupted government plans for urban highways and new hydroelectric dams and got Congress to pass tough legislation to protect clean air and clean water They helped lead a revolution in safety that forced companies and governments to better protect consumers and workers from dangerous products and hazardous work conditions And yet in the process citizen advocates also helped to undermine big government liberalism the powerful alliance between government

business and labor that dominated the United States politically in the decades following the New Deal and World War II. Public interest advocates exposed that alliance's secret bargains and unintended consequences. They showed how government power often was used to advance private interests rather than restrain them. In the process of attacking government for its failings and its dangers, the public interest movement struggled to replace traditional liberalism with a new approach to governing. The citizen critique of government power instead helped clear the way for their antagonists: Reagan-era conservatives seeking to slash regulations and enrich corporations. *Public Citizens* traces the history of the public interest movement and explores its tangled legacy, showing the ways in which American liberalism has been at war with itself. The book forces us to reckon with the challenges of regaining our faith in government's ability to advance the common good.
