Guide for the linguistic inclusion of migrants Lorna Carson, 2022-06-01 Designed to create tangible materials which support the demands of this context the INCLUDEED Erasmus project aims to integrate migrants and refugees through one of Europe's greatest assets their languages This guide aims to become an ally of both those who wish to deepen their knowledge of the migration phenomenon and those who wish to facilitate the integration process of these groups Developed from the experience that the Universities of the consortium have in this field University of Salamanca University of Bologna University of Coimbra University of Heidelberg University of Poitiers and Trinity College Dublin this document emanates from a common effort as well as from the will to form an egalitarian society in terms of integration However this would not have been possible without the support of various non governmental organisations Red Cross ACCEM CEPAIM Foundation and Sierra Pambley Foundation which dedicated to the reception and integration of migrants and refugees throughout Europe have facilitated the identification of difficulties and enabled bridges to be built between different perspectives and joint efforts to converge in the same direction This guide addresses the various challenges that emerge during the integration period of these groups and proposes solutions that can help this complex process to be successful Designed as a useful vade mecum for the performance of the tasks of the various groups language teaching professionals or volunteers non governmental organisations and national and supranational public institutions it is a support tool that guides the actions of those involved in the process of linguistic integration of newly arrived people It provides them with a better understanding of the situation in which these groups find themselves and of the tools available to achieve this In short it is a document that seeks to bring together through informative but rigorous text the theoretical advances in this field and to offer various resources that can be put into practice in real life Finally we would like to emphasise that the contents of this guide should be understood as suggestions arising from the experience and commitment of those who have worked on its development and as a tool that will help to answer some of the questions that arise in the process of integration of migrant groups These questions are currently being answered thanks to the committed engagement of all those who are participating in this project

In addition information from all the countries in the consortium can be found throughout these pages which broadens the perspective of most of the tools created so far making this guide truly an international reference work

The Languages and Linguistics of South Asia Hans Henrich Hock, Elena Bashir, 2016-05-24 With nearly a quarter of the world's population members of at least five major language families plus several putative language isolates South Asia is a fascinating arena for linguistic investigations whether comparative historical linguistics studies of language contact and multilingualism or general linguistic theory This volume provides a state of the art survey of linguistic research on the languages of South Asia with contributions by well known experts Focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research In addition to covering the languages their histories and their genetic classification as well as phonetics phonology morphology syntax and sociolinguistics the volume provides special coverage of contact and convergence indigenous South Asian grammatical traditions applications of modern technology to South Asian languages and South Asian writing systems An appendix offers a classified listing of major sources and resources both digital online and printed

Ancestral Journeys: The Peopling of Europe from the

First Venturers to the Vikings Jean Manco,2013-10-07 Incorporates the latest discoveries and theories from archaeology genetics history and linguistics to paint a spirited history of European settlement Who are the Europeans and where did they come from In recent years scientific advances have released a mass of data turning cherished ideas upside down The idea of migration in prehistory so long out of favor is back on the agenda New advances allow us to track human movement and the spread of crops animals and disease and we can see the evidence of population crashes and rises both continent wide and locally Visions of continuity have been replaced with a more dynamic view of Europe s past with one wave of migration followed by another from the first human arrivals in Europe to the Vikings Ancient DNA links Europe to its nearest neighbors It is not a new idea that farming was brought from the Near East but genetics now reveal an unexpectedly complex process in which farmers arrived not in one wave but several Even more unexpected is the evidence that the European gene pool was stirred vigorously many times after farming had reached most of Europe Climate change played a part in this upheaval but so did new inventions such as the cart and wheeled vehicles Genetic and linguistic clues also enhance our understanding of the upheavals of the Migration Period the wanderings of steppe nomads and the adventures of the Vikings
