problems lies within a policy process that has yet to take into account the unique mission of DHS relative to export controls Export Control Challenges Associated with Securing the Homeland explains the need by the Department of Defense and State to recognize the international nature of DHS's vital statutory mission the need to further develop internal processes at DHS to meet export control requirements and implement export control policies as well as the need to reform the export control interagency process in ways that enable DHS to work through the U S export control process to cooperate with its foreign counterparts *Technological Solutions for Modern Logistics and Supply Chain Management* Luo, ZongWei,2013-01-31 *Technological Solutions for Modern Logistics and Supply Chain Management* highlights theories and technological growth in applied research as well as advances in logistics supply chains and industry experiences Aiming to enhance the expansions made towards an efficient and sustainable economy this book is essential for providing researchers practitioners and academicians with insight into a wide range of topics Department of Homeland Security Appropriations for 2012 United States.
