Committee on the Judiciary, 2002 **Winning the Un-war** Charles V. Peña, 2007 According to President Bush the American people are safer as a result of invading Iraq True Saddam Hussein has been removed from power But al Qaeda the group that planned and carried out the attacks on September 11 remains at large Meanwhile the White House has conceded that Saddam Hussein had nothing to do with the attacks Charles Peña argues that the war in Iraq is but one misstep in the Bush administration's global war on terror Terrorism is simply a tactic however not an enemy Trying to eradicate it is a quixotic quest that does not focus on those responsible for 9/11 Instead the national security strategy should consist of three central elements establishing homeland security against further attacks dismantling the al Qaeda terrorist network and enacting a foreign policy that does not attract new al Qaeda terrorists This approach requires restructuring U.S. forces and ending Cold War era commitments that distract from the current pressing threat It also requires ameliorating the negative consequences of an interventionist U.S. foreign policy which creates incentives and opportunities for terrorists to target the United States If we misdiagnose al Qaeda's motivations or focus military efforts on the wrong targets then we run the risk that the war against the al Qaeda terrorist threat and the radical Islamic ideology it represents will become a broader war against the Islamic world that could last generations and cost countless lives With a foreword by Michael Scheuer the bestselling author of *Imperial Hubris* *Department of Defense Appropriations* United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense, 2010 **Defense Strategy for the Post-Saddam Era** Michael E. O'Hanlon, 2005-09-01 The Brookings Institution has long produced an analysis of America's defense budgets and policies The war on terror and the ongoing operations in Iraq and Afghanistan have forced upon this country soaring defense budgets and unprecedented challenges in policymaking In the newest installment in this tradition leading foreign policy expert Michael O'Hanlon offers policy recommendations for strengthening the ability of America's military to respond to international crises in a tumultuous world The United States can for the foreseeable future be confident that its armed forces will remain engaged in Iraq as well as in Afghanistan and other theaters in the war on terror It will also need to remain

involved in deterrence missions in the western Pacific most notably in Korea and the Taiwan Strait It will wish to remain engaged in European security since the capabilities and cohesion of the NATO alliance have important implications for the United States globally O Hanlon reviews these priorities asking tough questions and developing frameworks for answering them What military will the United States need in the future How much will it cost How can the U S increase the size of its ground forces without increasing the size of the defense budget In an era of apocalyptic terror threats and at a time of 400 billion defense budgets and 400 billion federal budget deficits how can this country protect its citizens while maintaining fiscal responsibility *An Analysis of the Army's Transformation Programs and Possible Alternatives* Frances M.

Lussier,2009 A CBO study Assesses the competitiveness of nuclear power compared to other sources of new capacity to generate electricity **Analysis of the Army's Transformation Programs and Possible Alternatives** Frances M.

Lussier,2010 The Army has initiated two programs designed to transform itself from a force focused on fighting the Cold War to one better designed to face the challenges of the 21st century Those two programs the Modularity Initiative and the Future Combat Systems FCS program would change the way the Army is organized and equipped respectively This study considers the near and long term implications of those two programs It also examines three alternatives for modernizing the Army s combat forces using modified versions of the FCS program and estimates the costs and savings of those options as well as their effects on the Army s ability to introduce new technologies into its combat brigades An objective impartial analysis Charts and tables **Oversight of Defense Department Acquisitions** United States.
