moderated market economies have formed the cornerstone of the European socioeconomic model Now however due to
powerful global economic political and demographic tendencies tensions between social and economic interests and values
are increasing These developments create an urgent need for answers actions and measures on the European level This wide
ranging but focused collection of essays approaches this important trend from multiple perspectives Compiled in honour of
the major European labour law scholar Teun Jaspers it encompasses a broad spectrum of analyses and insights by forty one
distinguished contributors from seven countries Four major tensions are identified between the European and national level
