Reputation for Resolve Danielle L. Lupton, 2020-04-15 How do reputations form in international politics What influence do these reputations have on the conduct of international affairs In Reputation for Resolve Danielle L. Lupton takes a new approach to answering these enduring and hotly debated questions by shifting the focus away from the reputations of countries and instead examining the reputations of individual leaders Lupton argues that new leaders establish

personal reputations for resolve that are separate from the reputations of their predecessors and from the reputations of their states Using innovative survey experiments and in depth archival research she finds that leaders acquire personal reputations for resolve based on their foreign policy statements and behavior Reputation for Resolve shows that statements create expectations of how leaders will react to foreign policy crises in the future and that leaders who fail to meet expectations of resolute action face harsh reputational consequences Reputation for Resolve challenges the view that reputations do not matter in international politics In sharp contrast Lupton shows that the reputations for resolve of individual leaders influence the strategies statesmen pursue during diplomatic interactions and crises and she delineates specific steps policymakers can take to avoid developing reputations for irresolute action Lupton demonstrates that reputations for resolve do exist and can influence the conduct of international security Thus Reputation for Resolve reframes our understanding of the influence of leaders and their rhetoric on crisis bargaining and the role reputations play in international politics

Monthly Notes on Tariff Reform ,1908 **Learning to Love the Bomb** Sean M. Maloney,2007

In *Learning to Love the Bomb* Sean M Maloney explores the controversial subject of Canada's acquisition of nuclear weapons during the Cold War Based on newly declassified Canadian and U S documents it examines policy strategy operational and technical matters and weaves these seemingly disparate elements into a compelling story that finally unlocks several Cold War mysteries For example while U S military forces during the 1962 Cuban Missile Crisis were focused on the Caribbean Sea and the southeastern United States Canadian forces assumed responsibility for defending the northern United States with aircraft armed with nuclear depth charges flying patrols and guarding against missile attack by Soviet submarines This defensive strategy was a closely guarded secret because it conflicted with Canada's image as a peacekeeper and therefore a more passive member of NATO than its ally to the south It is revealed here for the first time The place of nuclear weapons in Canadian history has until now been a highly secret and misunderstood field subject to rumor rhetoric half truths and propaganda *Learning to Love the Bomb* reveals the truth about Canada's role as a nuclear power
