**Marriage Discourses** Jowan A. Mohammed, Frank Jacob, 2021-11-22 Marriage was historically not only a romantic ideal but a tool of exploitation of women in many regards Women were often considered commodities and marriage was far away from the romantic stereotypes people relate to it today While marriages served as diplomatic tools or means of political legitimization in the past the discourses about marital relationships changed and women expressed their demands more openly Discourses about marriage in history and literature naturally became more and more heated especially during the long 19th century when marriages were contested by social reformers or political radicals male and female alike The present volume provides a discussion of the role of marriage and the discourses about in different chronological and geographical contexts and shows which arguments played an important role for the demand for more equality in marital relationships It focuses on marriage discourses may they have been legal or rather socio political ones In addition the disputes about marriage in literary works of the 19th and 20th centuries are presented to complement the historical debates *Scents and Sensibility* Catherine Maxwell, 2017-10-11 This lively accessible book is the first to explore Victorian literature through scent and perfume presenting an extensive range of well known and unfamiliar texts in intriguing and imaginative new ways that make us re think literature's relation with the senses Concentrating on aesthetic and decadent authors *Scents and Sensibility* introduces a rich selection of poems essays and fiction exploring these texts with reference to both the little known cultural history of perfume use and the appreciation of natural fragrance in Victorian Britain It shows how scent and perfume are used to convey not merely moods and atmospheres but the nuances of the aesthete or decadent's carefully cultivated identity personality or sensibility A key theme is the emergence of the olfactif the cultivated individual with a refined sense of smell influentially represented by the poet and critic Algernon Charles Swinburne who is emulated by a host of canonical and less well known aesthetic and decadent successors such as Walter Pater Edmund Gosse John Addington Symonds Lafcadio Hearn Michael Field Oscar Wilde Arthur Symonds Mark Andr Raffalovich Theodore Wratislaw and A Mary F Robinson This book explores how scent and perfume pervade the work of these authors in many different ways signifying such diverse things as style atmosphere influence sexuality sensibility spirituality refinement individuality the expression of love and poetic creativity and the aura of personality dandyism modernity and memory A coda explores the contrasting twentieth century responses of Virginia Woolf and Compton Mackenzie to the scent of Victorian literature
