The UK Regional-National Economic Problem Philip McCann, 2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain's regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of

prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK s economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government Development Challenges, South-South Solutions: June 2014 Issue David South, Writer, 2014-06-05

Development Challenges South South Solutions is the monthly e newsletter of the United Nations Office for South South Cooperation in UNDP www.southerninnovator.org It has been published every month since 2006 Its sister publication Southern Innovator magazine has been published since 2011 ISSN 2227 3905 Stories by David South UN Office for South South Cooperation Contact the Office to receive a copy of the new global magazine Southern Innovator Issues 1 2 3 4 and 5 are out now and are about innovators in mobile phones and information technology youth and entrepreneurship agribusiness and food security cities and urbanization and waste and recycling Why not consider sponsoring or advertising in an issue of Southern Innovator Or work with us on an insert or supplement of interest to our readers Follow SouthSouth1 In this issue Caribbean Island St Kitts Goes Green for Tourism Big Data Can Transform the Global South s Growing Cities Indian Business Model Makes Green Energy Affordable South South Trade Helping Countries During Economic Crisis China's Economic Development Lee Pei May, 2024-06-21 Through a rigorous examination of China s rise Lee addresses an important question Did China catch up Or more specifically can growth be automatically translated to catching up with the advanced industrialised countries or has it only allowed limited progress if any to be made To answer these queries and the broader question of the possibility of the Global South converging with the Global North four development theories are utilised with competing explanations to uncover the complexity and multifaceted development of China This includes whether China really has a unique developmental model to offer Positioning China within the global economy this book traces its developmental progress over time as well as its progress relative to other countries To understand whether the Chinese political economy is socialist or not Lee moves away from the orthodox definition of socialism and instead examines the official narrative of Socialism with Chinese Characteristics Lastly this book argues that though China is catching up challenges that could potentially block China s progress for a full catch up are to be anticipated A useful resource for students and scholars in the fields of international relations international political economy Chinese studies and development studies *Global Economic Prospects, June 2020* World Bank Group, 2020-07-07 The COVID 19 pandemic has with alarming speed dealt a heavy blow to an already weak global economy which is expected to slide into its deepest recession since the second world war despite unprecedented policy support The global recession would be deeper if countries take longer to bring the pandemic under control if financial stress triggers defaults or if there are protracted effects on households and firms Economic disruptions

are likely to be more severe and protracted in emerging market and developing economies with larger domestic outbreaks and weaker medical care systems greater exposure to international spillovers through trade tourism and commodity and financial markets weaker macroeconomic frameworks and more pervasive informality and poverty Beyond the current steep economic contraction the pandemic is likely to leave lasting scars on the global economy by undermining consumer and investor confidence human capital and global value chains Being mostly a reflection of the recent plunge in global energy demand low oil prices are unlikely to provide much of a boost to global growth in the near term While policymakers immediate priorities are to address the health crisis and moderate the short term economic losses the likely long term consequences of the pandemic highlight the need to forcefully undertake comprehensive reform programs to improve the fundamental drivers of economic growth once the crisis abates

Global Economic Prospects is a World Bank Group Flagship Report that examines global economic developments and prospects with a special focus on emerging market and developing economies on a semiannual basis in January and June The January edition includes in depth analyses of topical policy challenges faced by these economies while the June edition contains shorter analytical pieces

Service Industries and Regions Juan R. Cuadrado-Roura, 2013-03-26 The service sector in most advanced economies accounts for up to seventy percent of employment and GDP and given its growing importance has received much research attention over the last two decades However not very much attention has been paid to the relationship between this sector and both its territorial impact and regional effects The main objective of this book is to offer a comprehensive approach to these aspects focusing particularly on the location factors of service industries and the importance of some specific services such as business services and knowledge and information services The contributions have been prepared by well known experts in the field from a wide number of countries The focus of all contributions is not only on theoretical aspects but also provides empirical analyses on specific countries and topics such as the geographical concentration globalization impacts foreign direct investments and innovation

Australia's Welfare Wars Revisited Philip Mendes, 2007 This book explores the role played by ideologies and lobby groups in determining welfare state outcomes with specific reference to up to date theories about globalisation

Political Handbook of the World 2015 Tom Lansford, 2015-03-24 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this annual update includes coverage of current events issues crises and controversies from the course of this year

Domination and Subordination as a Social Organization Principle in Georg Simmel's Soziologie Adele

Bianco, 2014-07-16 Analyzing Georg Simmel's theory of domination and subordination as presented in his *Soziologie* 1908 Adele Bianco focuses on concrete case studies to derive an interpretation of globalization processes Within sociology domination and subordination are reciprocal They represent constitutive modes of associated living based on a hierarchical structure Domination and subordination reflect social configurations but are very controversial categories Sometimes perceived as a justification of the status quo they also run the risk of legitimizing the perpetuation of inequalities In truth they are tools to help us understand social order and identify inequalities regulating structures Domination and Subordination as a Social Organization Principle in Georg Simmel's *Soziologie* begins by defining the relationship between domination and subordination at the micro level the relationship among subjects Then after discussing the macro level Bianco employs a variety of case studies to expose the intricacies of Simmel's domination and subordination theory The ensuing discussions of democracy employment relationships social relationships and globalization answer such questions as Why is society divided between a top and a bottom What does it mean to wield authority What degrees of power are held by those in a position of inferiority Why is the strong subject ultimately in need of the weak subject What can be said of a majority winning in a democracy and what is the minority left with How can the social condition of the modern worker be reconciled with his proclaimed freedom and What does subordination to the employer effectively comprise Scholars and students of sociology social theory labor studies and psychology will benefit from this book's combination of intricate theories and real world case studies towards a comprehensive theory of modern globalization
