concerns of minority communities Studying performance and its role in creating and reflecting social cultural and historical identity in contemporary America it draws on cutting edge research in the field to move discussion away from the interpretation of dramatic texts in isolation from their performance context and towards an analysis of the dynamic experience of live theatre The discussion focuses particularly on the ability of engaged performances to pose critical challenges to the long standing stereotypes that have contributed to the misrepresentation and marginalization of minority cultures However in the process it also uncovers the ways in which such performances can inadvertently reinforce the very stereotypes they aim to execute demonstrating that ancient drama can be a powerful and dangerous tool in the search for social justice
